

minimis (i.e., 0.50 percent or greater). Accordingly, we have calculated importer-specific duty assessment rates for the merchandise in question. The assessment rate will be assessed uniformly on all entries of that particular importer made during the POR.

Cash Deposit Rates

The following antidumping duty deposits will be required on all shipments of stainless steel bar from India entered, or withdrawn from warehouse, for consumption, effective on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) for Viraj, no antidumping duty deposit will be required; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in the original less-than-fair-value investigation or a previous review, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the manufacturer or exporter received an individual rate; (3) if the exporter is not a firm covered in this review, the previous review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous reviews, the cash deposit rate will be 12.45 percent, the "all others" rate established in the less-than-fair-value investigation (see *Stainless Steel Bar from India; Final Determination of Sales at Less Than Fair Value*, 59 FR 66915 (December 28, 1994)).

These cash deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APOs") of their

responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(a)(1) and 777(i)(1) of the Act.

Dated: July 5, 2002.

Acting Assistant Secretary for Import Administration.

Permit No. 42-1642 authorizes the permit holder to: study metabolic clearance rates of vitamins A and E using isotope tracers and vitamin analogs in captive Steller sea lions (*Eumetopias jubatus*) in relation to various life history stages; establish the vitamin A and E status of free-ranging Steller sea lions; determine the metabolic requirements for these vitamins by relating intake to blood levels in captive specimens; and receive or import serum and milk samples from captive marine mammals held in facilities within the United States and abroad to study the disease hemochromatosis (an excessive accumulation of iron in tissues often associated with hepatic lesions) as well as others associated with general marine mammal health. changes in vitamin A and E status in relation to various life history stages in captive Steller sea lions.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
