Currently Approved Information Collection.

Abstract: The information collection is needed to enable the Department of Agriculture to effectively administer the Aerial Photography Program. APFO has the responsibility for conducting and coordinating the FSA's aerial photography, remote sensing programs, and the aerial photography flying contract programs. The digital and film imagery secured by FSA is public domain and reproductions of such imagery are available at cost to any customer with a need. All receipts from the sale of aerial photography products and services are retained by FSA. The FSA–441, Request for Aerial Photography, is the form FSA supplies to the customers for placing an order for aerial imagery products and services. There are no changes to the burden hours since the last OMB submission.

The formula used to calculate the total burden hour is estimated average time per responses hours times total annual responses.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 19 minutes hours per response. The average travel time, which is included in the total burden, is estimated to be 1 hour per respondent.

Respondents: Farmers, Ranchers and other USDA customers who wish to purchase imagery products and services.

Estimated Number of Respondents: 12,120.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 12,120.

SUPPLEMENTARY INFORMATION:

Title: Consumer Complaint Monitoring System; the Food Safety Mobile Questionnaire.

OMB Control Number: 0583–0133.

Expiration Date: 8/31/2015.

Type of Request: Extension of an approved information collection.

Abstract: FSIS, by delegation (7 CFR 2.18, 2.53), exercises the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS tracks consumer complaints about meat, poultry, and egg products. Consumer complaints are usually filed because the food made the consumer sick, caused an allergic reaction, was not properly labeled (misbranded), or contained a foreign object. FSIS uses a web portal to allow consumers to electronically file a complaint with the Agency about a meat, poultry, or egg product. FSIS uses this information to look for trends that will enhance the Agency's food safety efforts.

FSIS uses a Food Safety Mobile or USDA Food Safety Discovery Zone—a

vehicle that travels throughout the continental United States, to educate consumers about the risks associated with the mishandling of food and the steps they can take to reduce their risk of foodborne illness. Organizations can request a visit from the FSIS Food Safety Mobile, although its availability is limited. To facilitate the scheduling of the Food Safety Mobile's visits when it is available, the Agency uses an electronic questionnaire on its Web site. The questionnaire solicits information about the person or organization requesting the visit, the timing of the visit, and the type of event at which the Food Safety Mobile is to appear.

FSIS is requesting an extension of an approved information collection addressing paperwork and recordkeeping requirements regarding the Agency's CCMS web portal and regarding its electronic Food Safety Mobile questionnaire.

FSIS has made the following estimates based upon an information collection assessment.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average .446 hours per response.

Respondents: Consumers and organizations.

Estimated Number of Respondents: The CCMS web portal will have approximately 1,000 respondents. The Food Safety Mobile questionnaire will have approximately 150 respondents.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: The total annual burden time is estimated to be around 500 hours for respondents using CCMS web portal, and 13 hours for respondents using the Food Safety Mobile questionnaire. Thus, the total annual burden time for these two systems is 513 hours. Copies of this information collection assessment can be obtained from Gina Kouba, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence, SW., Room 6077, South Building, Washington, DC 20250, (202)690-6510.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the

collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
