

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71****[Airspace Docket No. 00-ANM-29]****Revision of Class E Airspace, Salmon, ID****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This action revises the Class E airspace at Salmon, ID. Newly developed Area Navigation (RNAV) and VOR/DME Standard Instrument Approach Procedure (SIAP), and the RNAV Departure Procedure (DP) at the Salmon Lemhi County Airport made this action necessary. Additional Class E 700-foot and 1,200-foot controlled airspace, above the surface of the earth is required to contain aircraft executing the RNAV and VOR/DME SIAP's, and RNAV DP at Salmon Lemhi County Airport.

EFFECTIVE DATE: 0901 UTC, September 6, 2001.

FOR FURTHER INFORMATION CONTACT: Brian Durham, ANM-520.7, Federal Aviation Administration, Docket No. 00-ANM-29, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone number: (425) 227-2527.

SUPPLEMENTARY INFORMATION:**History**

On April 11, 2001, the FAA proposed to amend Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class E airspace at Salmon, ID, in order to accommodate new RNAV SIAP's at Salmon Lemhi County Airport, Salmon, ID (66 FR 18737). This amendment provides Class E5 airspace at Salmon, ID, to meet current criteria standards associated with the SIAP. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received.

The Rule

This amendment to Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) revises Class E airspace at Salmon, ID, in order to accommodate a new SIAP to the Salmon Lemhi County Airport, Salmon, ID. This amendment revises Class E5 airspace at Salmon, ID, to meet current criteria standards associated with the RNAV and VOR/DME SIAP. The FAA establishes Class E airspace where necessary to contain aircraft transitioning between the

terminal and en route environments. The rule is designed to provide for the safe and efficient use of the navigable airspace and to promote safe flight operations under instrument Flight Rules (IFR) at the Salmon Lemhi County Airport and between the terminal and en route transition stages.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for the airspace docket are based on North American Datum 83. Class E airspace areas extending upward from 700 feet or more above the surface of the earth, are published in Paragraph 6005, of FAA Order 7400.9H dated September 1, 2000, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1. of the Federal Aviation Administration Order 7400.9 H,

Airspace Designations and Reporting Points, dated September 1, 2000, and effective September 16, 2000, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71****[Airspace Docket No. 01-ANM-03]****Establishment of Class E Airspace, Malta, MT****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This action establishes Class E airspace at Malta, MT. Newly developed Area Navigation (RNAV) Standard Instrument Approach Procedures (SIAP) to the Malta Airport has made this action necessary. Class E 700-foot and 1,200-foot controlled airspace, above the surface of the earth is required to contain aircraft executing procedures in the Instrument Flight Rules (IFR).
