### Agricultural Marketing Service

*Title:* Laboratory Approval Programs.  
*OMB Control Number:* 0581–0320.

*Summary of Collection:* In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to receive approval from the Office of Management and Budget (OMB) to collect information for the Micro-Grants for Food Security Program (MGFSP) under its Grants Division. Due to the passing of the Agriculture Improvement Act of 2018 (Pub. L. 115–343) (Farm Bill), AMS Grants Division is implementing this new grant program under section 4206, which directs the Secretary of Agriculture to "distribute funds to the agricultural department or agency of each eligible state for the competitive distribution of subgrants to eligible entities for fiscal year 2019 and each fiscal year thereafter."

*Need and Use of the Information:* The AMS Grants Division requests to collect information from agricultural agencies or departments in eligible states, which include Alaska, American Samoa, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, the Federated States of Micronesia, Guam, Hawaii, the Republic of the Marshall Islands, the Republic of Palau, and the United States Virgin Islands for this new grant program.

MGFSP is intended to increase the quantity and quality of locally grown food in food insecure communities, including through small-scale gardening, herding, and livestock operations, in eligible states. The Farm Bill authorized to be appropriated to the Secretary \$10 million for fiscal year 2019 and each fiscal year thereafter. In fiscal year 2020, \$5 million was appropriated.

Because MGFSP is voluntary, respondents request or apply for this specific non-competitive grant program, and in doing so, they provide information. AMS is the primary user of the information. The information collected is needed to certify that grant participants are complying with applicable program regulations, and the data collected is the minimum information necessary to effectively carry out the requirements of the

program. The information collection requirements in this request are essential to carry out the intent of the 7 U.S.C. 7518, to provide the respondents the type of service they request, and to administer this program.

*Description of Respondents:* Grant applicants, grant recipients.

*Number of Respondents:* 10.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 318.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Census Bureau is planning to resubmit to the Office of Management and Budget for approval, the Quarterly Financial Report (QFR) program information collection forms. The QFR forms to be submitted for approval are: The QFR 200 (MT) long form (manufacturing, mining, wholesale trade, and retail trade); QFR 201 (MG) short form (manufacturing); and the QFR 300 (S) long form (information services and professional and technical services). The Census Bureau is not requesting any changes to the current forms.

The QFR program collects and publishes up-to-date aggregate statistics on the financial results and position of U.S. corporations. The QFR target population consists of all corporations engaged primarily in manufacturing with total assets of \$5 million and over, and all corporations engaged primarily in mining; wholesale trade; retail trade; information; or professional and technical services (except legal services) industries with total assets of \$50 million and over.

The QFR program is a principal federal economic indicator that has published up-to-date aggregate statistics on the financial results and position of U.S. corporations since 1947. The QFR provides critical source data to the Bureau of Economic Analysis' quarterly estimates of Gross Domestic Product and Gross Domestic Income. The QFR data are also vital to the Federal Reserve Board's Financial Accounts. These organizations and others like the Bureau of Labor Statistics provide guidance, advice, and support to the QFR
