Ltd.

On September 7, 2012, LDR withdrew its request for an administrative review of Xuzhou Global Pipe & Fitting Manufacturing Co., Ltd. On November 28, 2012, Wheatland withdrew its request for an administrative review of the remaining 26 companies.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review if the party that requested the review withdraws its request within 90 days of the publication of the notice of initiation of the requested review. In this case, LDR and Wheatland withdrew their requests within the 90-day deadline and no other parties requested an administrative review of the antidumping duty order. Therefore, we are rescinding the administrative review of circular welded carbon quality steel pipe from the PRC for the period July 1, 2011, through June 30, 2012.

Assessment

The Department will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on all appropriate entries. Because the Department is rescinding this administrative review in its entirety, the entries to which this administrative review pertained shall be assessed antidumping duties at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19

CFR 351.212(c). The Department intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice.

Notifications

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a final reminder to parties subject to administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Title of Collection: National Assessment of Education Progress (NAEP) 2014-2016 System Clearance.

OMB Control Number: 1850-0790.

Type of Review: Revision of an existing collection of information.

Respondents/Affected Public: States, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 1,609,126.

Total Estimated Number of Annual Burden Hours: 758,329.

Abstract: NCES is requesting a 3 year generic system clearance for the National Assessment of Education

Progress (NAEP) to be administered in the 2014-2016 timeframe (OMB #1850-0790). The primary reason for the system clearance request is that it enables NAEP to meet its large and complex assessment reporting schedules and deliverables through a more efficient clearance process. NAEP is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Pub. L. 107-279 Title III, section 303) requires the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related to academic achievement and aids in fair reporting of results. The intent of the law is to provide representative sample data on student achievement for the nation, the states, and subpopulations of students and to monitor progress over time. The nature of NAEP is that burden alternates from a relatively low burden in national-level administration years to a substantial burden increase in state-level administration years when the sample has to allow for estimates for individual states and some of the large urban districts. Consequently, the estimated respondent burden is substantially lower for the 2014 and 2016 versus the 2015 administration of NAEP. The NAEP results will be reported to the public through the Nations Report Card as well as other online NAEP tools.
