**SUPPLEMENTARY INFORMATION:** Section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Pub. L. 106-554) directed OMB to issue government-wide guidelines that "provide policy and procedural guidance to Federal agencies for ensuring and maximizing the quality, objectivity, utility, and integrity of information (including statistical information) disseminated by Federal agencies." OMB complied by issuing guidelines that directed each Federal agency to: (a) issue its own guidelines; (b) establish administrative mechanisms allowing affected persons to seek and obtain correction of information that does not comply with OMB's 515 guidelines; and (c) report periodically to the Director of OMB on the number and nature of complaints received by the agency regarding the accuracy of information disseminated by the agency and how such complaints were handled by the agency.

In compliance with OMB's directives, the Department of the Interior (DOI) issued draft Information Quality Guidelines in the **Federal Register** on May 24, 2002 (65 FR 26642), that instructed each bureau to prepare its own guidelines. In response to DOI's **Federal Register** Notice, Reclamation developed and issued draft guidelines for comment on its Web site on August 1, 2002. We received comments from one private organization and several individuals. We considered their comments, and where applicable or appropriate, we incorporated them into our final guidelines.

We have now finalized our guidelines and posted them to our Web site. These guidelines are a living document and may be revised periodically to reflect changes in DOI's or Reclamation's policy, or as best practices emerge, about how best to address, ensure, and maximize information quality. Reclamation welcomes comments on these guidelines at any time and will

consider those comments in any future revisions.

Dated: October 10, 2002.
