

mechanical power press using presence sensing device initiation (PSDI) automatically starts (initiates) the stroke when the device detects no operator within the danger zone near the press. The certification/validation of safety systems for PSDI shall consider the press, controls, safeguards, operator, and environment as an integrated system which shall comply with 29 CFR 1910.217(a) through (h). Accordingly, the Standard protects employees from serious crush injuries, amputations, and death.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency reports no program changes or adjustments; it is retaining its previous estimate of one hour.

The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements contained in the Standard.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The ICR addresses the burden hours associated with gathering information to complete the OSHA 70 Form. The OSHA 70 Form is used by applicants

seeking accreditation from OSHA to be able to test or examine certain equipment and material handling devices as required under the maritime regulations, part 1917 (Marine Terminals), and part 1918 (Longshoring). The OSHA 70 Form application for accreditation provides an easy means for companies to apply for accreditation.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

There are no program changes or adjustments associated with this Information Collection request. The Agency is requesting that it retain its current burden hour estimate of 184 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Gear Certification Standard (29 CFR part 1919); OSHA 70 Form.

OMB Control Number: 1218-0003.

Affected Public: Business or other for-profits.

Number of Respondents: 45.

Frequency of Responses: On occasion; Monthly.

Total Responses: 6,357.

Average Time per Response: Varies from 1 minute (.02 hour) for an employer to disclose the OSHA 70 Form to an OSHA Compliance Officer during an inspection to 45 minutes (.75 hour) for a prospective accredited agency to complete the form.

Estimated Total Burden Hours: 184.

Estimated Cost (Operation and Maintenance): \$2,878,090.

MILLENNIUM CHALLENGE CORPORATION

[MCC FR 16-08]

Report on the Selection of Eligible Countries for Fiscal Year 2017

AGENCY: Millennium Challenge Corporation.

ACTION: Notice.

SUPPLEMENTARY INFORMATION: This report is provided in accordance with section 608(d)(1) of the Millennium Challenge Act of 2003, Pub. L. 108-199, Division D, (the “Act”), 22 U.S.C. 7708(d)(1).

Dated: December 16, 2016.

Sarah E. Fandell,

VP/General Counsel and Corporate Secretary, Millennium Challenge Corporation.

Report on the Selection of Eligible Countries for Fiscal Year 2017

Summary

This report is provided in accordance with section 608(d)(1) of the Millennium Challenge Act of 2003, as amended, Pub. L. 108-199, Division D, (the “Act”) (22 U.S.C. 7707(d)(1)).

The Act authorizes the provision of assistance under section 605 of the Act (22 U.S.C. 7704) to countries that enter into compacts with the United States to support policies and programs that advance the progress of such countries in achieving lasting economic growth and poverty reduction, and are in furtherance of the Act. The Act requires the Millennium Challenge Corporation (“MCC”) to determine the countries that will be eligible to receive assistance for the fiscal year, based on their demonstrated commitment to just and democratic governance, economic freedom, and investing in their people, as well as on the opportunity to reduce poverty and generate economic growth in the country. The Act also requires the submission of reports to appropriate congressional committees and the publication of notices in the **Federal Register** that identify, among other things:

1. The countries that are “candidate countries” for assistance for fiscal year (“FY”) 2017 based on their per-capita income levels and their eligibility to receive assistance under U.S. law, and

countries that would be candidate countries but for specified legal prohibitions on assistance (section 608(a) of the Act (22 U.S.C. 7707(a)));

2. The criteria and methodology that the Board of Directors of MCC (the “Board”) will use to measure and evaluate the policy performance of the “candidate countries” consistent with the requirements of section 607 of the Act in order to select “eligible countries” from among the “candidate countries” (section 608(b) of the Act (22 U.S.C. 7707(b))); and

3. The list of countries determined by the Board to be “eligible countries” for FY 2017, with justification for eligibility determination and selection for compact negotiation, including with which of the eligible countries the Board will seek to enter into compacts (section 608(d) of the Act (22 U.S.C. 7707(d))).

This is the third of the above-described reports by MCC for FY 2017. It identifies countries determined by the Board to be eligible under section 607 of the Act (22 U.S.C. 7706) for FY 2017 with which the MCC will seek to enter into compacts under section 609 of the Act (22 U.S.C. 7708), as well as the justification for such decisions. The report also identifies countries selected by the Board to receive assistance under MCC’s threshold program pursuant to section 616 of the Act (22 U.S.C. 7715).

Eligible Countries

The Board met on December 13, 2016 to select those eligible countries with which the United States, through MCC, will seek to enter into a Millennium Challenge Compact pursuant to section 607 of the Act (22 U.S.C. 7706) for FY 2017. The Board selected the following eligible countries for such assistance for FY 2017: Burkina Faso, Sri Lanka, and Tunisia. The Board also reselected the following countries for compact assistance for FY 2017: Cote d’Ivoire, Mongolia, Nepal, and Senegal.

Criteria

In accordance with the Act and with the “Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance in Fiscal Year 2017” formally submitted to Congress on September 20, 2016, selection was based primarily on a country’s overall performance in three broad policy categories: Ruling Justly, Encouraging Economic Freedom, and Investing in People. The Board relied, to the maximum extent possible, upon transparent and independent indicators to assess countries’ policy performance and demonstrated commitment in these

three broad policy areas. The Board compared countries’ performance on the indicators relative to their income-level peers, evaluating them in comparison to either the group of low income countries (“LIC”) or the group of lower middle income countries (“LMIC”).

The criteria and methodology used to assess countries on the annual scorecards are outlined in the “Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance in Fiscal Year 2017.”¹ Scorecards reflecting each country’s performance on the indicators are available on MCC’s Web site at www.mcc.gov/scorecards.

The Board also considered whether any adjustments should be made for data gaps, data lags, or recent events since the indicators were published, as well as strengths or weaknesses in particular indicators. Where appropriate, the Board took into account additional quantitative and qualitative information, such as evidence of a country’s commitment to fighting corruption, investments in human development outcomes, or poverty rates. For example, for additional information in the area of corruption, the Board considered how a country is evaluated by supplemental sources like Transparency International’s Corruption Perceptions Index, the Global Integrity Report, Open Government Partnership status, and the Extractive Industry Transparency Initiative, among others, as well as on the defined indicator. The Board also took into account the margin of error around an indicator, when applicable. In keeping with legislative directives, the Board also considered the opportunity to reduce poverty and promote economic growth in a country, in light of the overall information available, as well as the availability of appropriated funds.

This was the eighth year the Board considered the eligibility of countries for subsequent compacts, as permitted under section 609(k) of the Act (22 U.S.C. 7708(k)). As in previous years, they considered the higher bar expected of subsequent compact countries, including examining the implementation of the first compact, and evidence of both improved scorecard policy performance and a commitment to reform. The Board also considered the eligibility of countries for initial compacts. The Board sees the selection decision as an annual opportunity to determine where MCC funds can be most effectively invested
