DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Notice To Rescind a Notice of Intent To Prepare an Environmental Impact Statement: State Route 18 From State Route-64 at Bolivar to State Route-100, Hardeman County, Tennessee**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice to Rescind a Notice of Intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public that the Notice of Intent published on March 7, 2007 to prepare an EIS for the proposed project to improve State Route 18 from State Route-64 at Bolivar to State Route-100, Hardeman County, Tennessee, is being rescinded.

FOR FURTHER INFORMATION CONTACT: Ms. Theresa Claxton, Planning and Program Management Team Leader, Federal Highway Administration—Tennessee Division Office, 404 BNA Drive, Suite 508, Nashville, TN 37217. 615-781-5770.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Tennessee Department of

Transportation (TDOT), is rescinding the notice of intent to prepare an EIS for an upgrade to the existing State Route 18 from State Route-64 at Bolivar to State Route-100, Hardeman County. The proposed project was approximately 10 miles in length and had been developed to bypass downtown Bolivar.

TDOT conducted public involvement and agency coordination, developed a purpose and need for the project and developed preliminary alternatives. In August of 2012, TDOT circulated and requested comments on a Preliminary Draft EIS (PDEIS) that was sent to agencies participating in Tennessee's Environmental Streamlining Agreement, including FHWA. Following the PDEIS, TDOT further considered the cost of the project, the project purpose and need and a southern bypass of Bolivar, a separate project that had been approved in a 2004 NEPA Finding of No Significant Impact. They also considered the adverse comments received from the public and resource agencies related to purpose and need, environmental impacts and project cost. Upon full consideration of the issues identified, FHWA and TDOT determined that they would not pursue the State Route 18 (Bolivar Northern Bypass) project.

Comments and questions concerning the proposed action should be directed to FHWA at the address provided above.

Planning and Program Mgmt. Team Leader, Nashville, TN.

Surface Transportation Board

[Docket No. AB 290 (Sub-No. 362X)]

Norfolk Southern Railway Company—Discontinuance of Service Exemption—in Isle of Wight County and the City of Suffolk, Va.

On March 20, 2014, Norfolk Southern Railway Company (NSR) filed with the Surface Transportation Board (Board) a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10903 to discontinue service over approximately 17.8 miles of rail line in Isle of Wight County and the independent City of Suffolk, Va., extending from milepost FD 19.2 in Suffolk to milepost FD 37.0 near Franklin, Va. (the Line). The Line traverses United States Postal Service Zip Codes 23434, 23437, and 23851, and includes the stations of Franklin, Holland, and Suffolk (the petition states that Suffolk will remain an active station because a portion of that station is located east of the subject discontinuance limits). According to the petition, the Line is stub-ended and therefore not capable of handling overhead traffic.

NSR states that, based on information in its possession, the Line does not contain federally granted rights-of-way. Any documentation in NSR's possession will be made available promptly to those requesting it.

The interest of railroad employees will be protected by the conditions set forth in *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

By issuance of this notice, the Board is instituting an exemption proceeding pursuant to 49 U.S.C. 10502(b). A final decision will be issued by July 8, 2014.

Because this is a discontinuance proceeding and not an abandonment proceeding, interim trail use/rail banking and public use conditions are not appropriate. Similarly, no environmental or historic documentation is required under 49 CFR 1105.6(c)(2) and 1105.8(b).
