Endangered and Threatened Wildlife and Plants; Endangered Species Status for Black-Capped Petrel

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), determine endangered species status under the Endangered Species Act of 1973 (Act), as amended, for the black-capped petrel (*Pterodroma hasitata*), a pelagic seabird species that nests on the island of Hispaniola and spends the rest of its life at sea. The species forages in high concentration off the coast of North

Carolina; however, the marine range extends across much of the western Atlantic (Nova Scotia to Venezuela) and into the Caribbean Sea and northern Gulf of Mexico. This rule extends the protections of the Act to the black-capped petrel.

DATES: This rule is effective January 29, 2024.

ADDRESSES: This final rule is available on the internet at <https://www.regulations.gov>. Comments and materials we received are available for public inspection at <https://www.regulations.gov> at Docket No. FWS–R4–ES–2018–0043.

Supporting materials we used in preparing this rule, such as the species status assessment report, are available at <https://www.regulations.gov> at Docket No. FWS–R4–ES–2018–0043.

SUPPLEMENTARY INFORMATION:

Executive Summary

Why we need to publish a rule. Under the Act (16 U.S.C. 1531 *et seq.*), a species warrants listing if it meets the definition of an endangered species (in danger of extinction throughout all or a significant portion of its range) or a threatened species (likely to become endangered within the foreseeable future throughout all or a significant portion of its range). If we determine that a species warrants listing, we must list the species promptly and designate the species' critical habitat to the maximum extent prudent and determinable. We have determined that the black-capped petrel meets the Act's definition of an endangered species; therefore, we are listing it as such. Listing a species as an endangered or threatened species can be completed only by issuing a rule through the Administrative Procedure Act rulemaking process (5 U.S.C. 551 *et seq.*).

What this document does. This rule lists the black-capped petrel (*Pterodroma hasitata*) as an endangered species under the Act.
