FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Submission for OMB Review; Comment Request

AGENCY: Federal Trade Commission ("FTC" or "Commission").

ACTION: Notice.

SUMMARY: The information collection requirements described below will be submitted to the Office of Management and Budget ("OMB") for review, as required by the Paperwork Reduction Act ("PRA"). The FTC is seeking public comments on its proposal to extend through November 30, 2014, the current OMB clearance for the information collection requirements contained in its Use of Prenotification Negative Option Plans ("Negative Option Rule" or "Rule"). That clearance expires on November 30, 2011.

DATES: Comments must be submitted by October 3, 2011.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write "Negative Option Rule: FTC File No. P064202" on your comment, and file your comment online at <https://ftcpublishcommentworks.com/ftc/NegOptionPRA> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail or deliver your comment to

the following address: Federal Trade Commission, Office of the Secretary, Room H-113 (Annex J), 600 Pennsylvania Avenue, NW., Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be addressed to Edwin Rodriguez, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue, NW., M-8102B, Washington, DC 20580, (202) 326-3147.

SUPPLEMENTARY INFORMATION: Under the PRA, 44 U.S.C. 3501-3521, federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. "Collection of information" means agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). As required by section 3506(c)(2)(A) of the PRA, the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the information collection requirements contained in the Negative Option Rule, 16 CFR part 425 (OMB Control Number 3084-0104).

The FTC invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The Negative Option Rule governs the operation of prenotification subscription plans. Under these plans, sellers notify subscribers that they will automatically ship merchandise, such as books, compact discs, or tapes, and bill subscribers for the merchandise if the subscribers do not expressly reject the merchandise beforehand within a prescribed time. The Rule protects consumers by: (a) Requiring that promotional materials disclose the terms of membership clearly and conspicuously; and (b) establishing

⁴ In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request, and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule 4.9(c), 16 CFR 4.9(c).

procedures for the administration of such “negative option” plans.

Burden Statement

Estimated annual hours burden: 3,875 hours.

Based on industry input, staff estimates that approximately 45 existing clubs each require annually about 75 hours to comply with the Rule’s disclosure requirements, for a total of 3,375 hours (45 clubs × 75 hours). These clubs should be familiar with the Rule, which has been in effect since 1974, with the result that the burden of compliance has declined over time. Moreover, a substantial portion of the existing clubs likely would make these disclosures absent the Rule because they have helped foster long-term relationships with consumers.

Approximately 5 new clubs come into being each year. These clubs require approximately 100 hours to comply with the Rule, including start up-time. Thus, the cumulative PRA burden for new clubs is about 500 hours (5 clubs × 100 hours). Combined with the estimated burden for established clubs, the total burden is 3,875 hours.

Estimated annual cost burden: \$171,825 (solely related to labor costs).

Based on recent data from the Bureau of Labor Statistics,¹ the mean hourly wage for advertising managers is approximately \$47 per hour. Compensation for office and administrative support personnel is approximately \$17 per hour. Assuming that managers perform the bulk of the work, while clerical personnel perform associated tasks (e.g., placing advertisements and responding to inquiries about offerings or prices), the total cost to the industry for the Rule’s information collection requirements would be approximately \$167,125 [(65 hours managerial time 45 existing clubs × \$47 per hour) + (10 hours clerical time × 45 existing clubs × \$17 per hour) + (90 hours managerial time × 5 new clubs × \$47 per hour) + (10 hours clerical time × 5 new clubs × \$17)].

Because the Rule has been in effect since 1974, the vast majority of the negative option clubs have no current start-up costs. For the few new clubs that enter the market each year, the costs associated with the Rule’s disclosure requirements, beyond the additional labor costs discussed above, are de minimis. Negative option clubs already have access to the ordinary office equipment necessary to achieve compliance with the Rule. Similarly, the

Rule imposes few, if any, printing and distribution costs. The required disclosures generally constitute only a small addition to the advertising for negative option plans. Because printing and distribution expenditures are incurred to market the product regardless of the Rule, adding the required disclosures results in marginal incremental expense.
