SUPPLEMENTARY INFORMATION:

On November 1, 2013, The Safety Institute, Carol Pollack-Nelson, and Cash, Krugler & Fredericks, LLC (collectively referred to as petitioners), submitted a petition to the Commission to initiate rulemaking to mandate a safety standard for residential elevators to address an entrapment hazard caused by excess space between the elevator car door/gate (interior door) and hoistway or swing door (exterior door).

Petitioners assert that in many home elevators, and in similar versions found in older apartment and commercial buildings, the clearance between the interior door and exterior door is large enough to allow children as old as 12 years to fit between the doors. According to petitioners, a child can become entrapped in the door path when the elevator is called to another floor, and the hoistway door automatically locks. The child's body is carried along with the elevator car until the hoistway door meets the obstruction of the sill, where the child's body—usually the head—is crushed.

Petitioners request that the CPSC promulgate a mandatory standard that constrains the space between residential elevator hoistway doors and car doors/gates to 4 inches when measured from the inside of the hoistway door to the farthest point on the car door/gate. Petitioners contend that the CPSC's figures show that there were an estimated 1,600 injuries associated with residential elevators and lifts from 2011 through 2012. According to the petitioners, some of those injuries, as well as several deaths, were due to children becoming entrapped in the gap between the residential elevators doors. In addition, the petitioners state that the voluntary standard (ASME Elevator Safety Code) has failed to safeguard children from injuries and deaths from the entrapment hazard because that standard allows a wider gap between the doors for a maximum of 5 inches.

Interested parties may obtain a copy of the petition by writing or calling the Office of the Secretary, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504–6833. The petition is also available at <http://www.regulations.gov> under Docket No.
