AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing approval of revisions to the Florida State Implementation Plan (SIP) submitted on July 22, 1996, by the State of Florida through the Florida Department of Environmental Protection (FDEP). These revisions to rules 62-296.412 and 62-296.511, which update the applicable requirements for perchloroethylene dry cleaners and halogenated solvent degreasing facilities to achieve compliance with regulations, are being made to keep the EPA approved SIP consistent with the Florida regulations.

In the Final Rules Section of this **Federal Register**, the EPA is approving Florida's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

Approval and Promulgation of Air Quality Implementation Plans; Maryland; Motor Vehicle Inspection and Maintenance Program—Request for Delay in the Incorporation of On-Board Diagnostics Testing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Maryland. The purpose of this SIP is to request a six-month extension of the Federal deadline for incorporating checks of On-board Diagnostic (OBD) systems on 1996-and-newer vehicles to Maryland's motor vehicle inspection and maintenance (I/M) program. EPA's I/M requirements regulations required states to add OBD checks to their I/M programs by January 1, 2002. However, states had the option to submit a request to EPA for a delay, of up to one additional year, of the deadline to add OBD system checks to the I/M program. Maryland's SIP revision contains a request for a six-month delay, or until July 1, 2002.

In the Final Rules section of this **Federal Register**, EPA is approving Maryland's SIP request as a direct final rule without prior proposal because the Agency views this as a noncontroversial request and anticipates no adverse comments. A more detailed description of Maryland's request and a detailed rationale for EPA's granting of the requested deadline extension is set forth in the direct final rule.

If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by February 18, 2003.

ADDRESSES: Written comments should be addressed to Robert Kramer, Acting Chief, Air Quality Planning and Information Services, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.
