

- Information gathered will not be used for the purpose of substantially informing influential policy decisions.
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Current Actions: Processing Information Collection as Fast Track Generic.

Type of Review: Renewal.

Affected Public: Individuals or Households; Business or Other For-Profit; Not-For-Profit Institutions; Farms; Federal Government; State, Local, or Tribal Government.

Estimated Annual Number of Respondents: 10,000.

Below we provide projected average burden estimates for the next three years:

Average Expected Annual Number of Activities: 100.

Average Number of Respondents per Activity: 1,000.

Responses per Respondent: 1.

Annual Responses: 10,000.

Average Minutes per Response: 10 minutes.

Annual Burden Hours: 10,000 hours.

Frequency: On occasion.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on regulations.gov. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget Control Number.

Dated: October 16, 2017.

Paulette Murray,

Supervisory Records Information Management Specialist, Bureau for Management, Office of Management Services, Information and Records Division.

BILLING CODE P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 19, 2017.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the

Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments are requested regarding: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; New Executive Office Building, 725 17th Street NW., Washington, DC 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602.

Comments regarding these information collections are best assured of having their full effect if received by November 24, 2017. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Plan for Estimating Daily Livestock Slaughter under Federal Inspection.

OMB Control Number: 0581-0050.

Summary of Collection: The Agriculture Marketing Act of 1946 (7 U.S.C. 1621-1627) Section 203(g), directs and authorizes the collection and dissemination of marketing information, including adequate outlook information on a market area basis, for the purpose of anticipating and meeting consumer requirements aiding in the maintenance of farm income and to bring about a balance between

production and utilization. Livestock, Poultry, and Grain market news provides a timely exchange of accurate and unbiased information on current marketing conditions (supply, demand, prices, trends, movement, and other information) affecting trade in livestock, poultry, meats, eggs, grain, hay and wool. Administered by the U.S. Department of Agriculture's Agricultural Marketing Service (AMS), this nationwide market news program is conducted in cooperation with approximately 28 State departments of agriculture.

Need and Use of the Information:

AMS will collect information on estimation of the current day's slaughter at their plant(s) and the actual slaughter of the previous day. The report is used to make market outlook projections and maintain statistical data. The up-to-the-minute reports collected and disseminated by professional market reporters are intended to provide both buyers and sellers with the information necessary for making intelligent, informed marketing decisions, thus putting everyone in the marketing system in an equal bargaining position. Since the government is a large purchaser of meat, a system to monitor the collection and reporting of data is needed. Collecting this information less frequently would hinder the timely use of this data.

Description of Respondents: Business or other for-profit; Individuals or households; Farms.

Number of Respondents: 58.

Frequency of Responses: Reporting: Weekly; Other: Daily.

Total Burden Hours: 502.

Charlene Parker,

Departmental Information Collection Clearance Officer.

Comments are requested regarding: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including

the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; New Executive Office Building, 725 17th Street NW., Washington, DC 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602.

Comments regarding these information collections are best assured of having their full effect if received by November 24, 2017. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Honey and Honey Bee Surveys.
OMB Control Number: 0535-0153.

Summary of Collection: The National Agricultural Statistics Service (NASS) primary function is to prepare and issue State and national estimates of crop and livestock production, products, prices and disposition. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204. Domestic honeybees are critical to the pollination of U.S. crops, especially fruits, some nuts, vegetables and some specialty crops. Africanized bees, colony collapse disorder, parasites, diseases, and pesticides threaten the survival of bees. Programs are provided by federal, State and local governments to assist in the survival of bees and to encourage beekeepers to maintain bee colonies.

With this renewal NASS is incorporating the two surveys (operations with fewer than 5 colonies and operations with 5 or more colonies) conducted under the 0535-0255 Colony

Loss collection with the honey production surveys included in this docket. NASS is also revising the title of this collection to Honey and Honey Bee Surveys.

Need and Use of the Information:

NASS will collect information on the number of colonies, honey production, stocks, and prices from beekeepers with five or more honey bee colonies and from a sampling of beekeepers that have less than five colonies. The survey will provide data needed by the Department and other government agencies to administer programs and to set trade quotas and tariffs. Without the information agricultural industry would not be aware of changes at the State and national level.

Description of Respondents: Farms.

Number of Respondents: 19,025.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 10,274.

Charlene Parker,

Departmental Information Collection Clearance Officer.
