

effectively, better meet the program's statutory purposes and requirements, and better ensure that TAH projects are improving teacher content knowledge of traditional American history and improving student achievement in history.

Proposed Revision to Selection Criteria

The Assistant Deputy Secretary for Innovation and Improvement proposes that in addition to the selection criteria established in the 2005 Notice, the Secretary may use any of the selection criteria in § 75.210, criteria based on statutory requirements under § 75.209, or any combination of these when establishing selection criteria for a particular TAH competition. We may apply one or more of these criteria in any year in which this program is in effect. In the notice inviting applications or the application package, or both, we will announce the maximum possible points assigned to each criterion.

Note: This notice does *not* solicit applications. In any year in which we choose to use one or more selection criteria, we invite applications through a notice in the **Federal Register**.

Executive Order 12866

Potential Costs and Benefits

Under Executive Order 12866, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with this proposed regulatory action are those resulting from statutory requirements and those we have determined to be necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this regulatory action, we have determined that the benefits would justify the costs.

We have also determined that this regulatory action would not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Summary of Potential Costs and Benefits

This proposed regulatory action affects only local educational agencies (LEAs) that are applying for assistance under the TAH program. This regulatory action would create flexibility for the Department to use selection criteria, other than those published in the 2005 Notice, for the 2009 TAH grant competition and those in subsequent years. We believe that any criterion from 34 CFR 75.209 or 34 CFR 75.210 that would be used in a future grant

competition would not impose a financial burden that LEAs would not otherwise incur in the development and submission of a grant application under the TAH program and, under some circumstances, could reduce the financial burden of preparing a TAH grant application by a modest amount if, for example, the use of this flexibility resulted in fewer criteria or factors to be addressed in a grant application.

Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.
