Algonquin Gas Transmission, L.L.C.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Kleen Energy Lateral Project and Request for Comments on Environmental Issues

September 23, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the potential environmental impacts of the Kleen Energy Lateral Project involving the construction of approximately 1.13 miles of 20-inch-diameter natural gas transmission pipeline by Algonquin Gas Transmission, L.L.C. (AGT) in Middletown, Connecticut. The EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help determine which issues need to be evaluated in the EA. Please note that the scoping period will close on October 23, 2008. Details on how to submit comments are provided in the "Public Participation" section of this notice.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; elected officials; Native American tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this proposed project and to encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. AGT would seek to negotiate a mutually acceptable
