SUPPLEMENTARY INFORMATION:

Background

On November 29, 2016, the Department published the *Preliminary Determination* in the **Federal Register**.¹

A summary of the events that occurred since the Department published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the accompanying Issues and Decision Memorandum.² The Issues and Decision Memorandum is a public document, and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and is available to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Scope Comments

In accordance with the *Preliminary Determination*, the Department set aside a period of time for parties to address scope issues in case briefs or other written comments on scope issues.³ In the *Preliminary Determination*, we did not modify the scope language as it appeared in the *Initiation Notice*.⁴ No interested party submitted scope comments in case or rebuttal briefs. However, the scope description that was published in the *Initiation Notice* and in the *Preliminary Determination* contained typographical errors, which have been corrected in the scope description provided in Appendix I of this notice.⁵ Other than the correction of

typographical errors, the scope of this investigation remains unchanged for this final determination.

Scope of the Investigation

The products covered by this investigation are finished carbon steel flanges from India. For a complete description of the scope of the investigation, see "Scope of the Investigation," in Appendix I of this notice.

Analysis of Subsidy Programs and Comments Received

The subsidy programs under investigation, and the issues raised in the case and rebuttal briefs submitted by the parties, are discussed in the Issues and Decision Memorandum. A list of the issues that parties raised, and to which we responded in the Issues and Decision Memorandum, is attached to this notice at Appendix II.

Verification

The Department conducted verification of the questionnaire responses submitted by the Government of India, USK Group, and RNG between January 30, and February 10, 2017.⁶

Use of Adverse Facts Available

If necessary information is not available on the record, or an interested party withholds information, fails to provide requested information in a timely manner, significantly impedes a proceeding by not providing information, or information provided cannot be verified, the Department will apply facts available, pursuant to section 776(a)(1) & (2) of the Tariff Act of 1930, as amended (the Act). For purposes of this final determination, the Department relied, in part, on facts available. For USK Group Ltd. (Norma)⁷ and R.N. Gupta & Co. (RNG), we are basing certain countervailing duty rates on facts otherwise available. Further, because USK Group and RNG did not act to the best of their ability in this investigation by not providing necessary
