

provided to the State and local fire fighting agencies by the Forest Service, have been used by State and local fire agencies to improve their fire suppression capabilities. The Forest Service will share the results of the data with Congress when requesting annual funding for the Program. The collected information also will enable the Forest Service to share with the public the importance and value of the State and Private Forestry Cooperative Fire Program.

Forest Service employees will not collect the information directly, but will request the information from State fire marshals, who will collect the information through their own State fire fighting agencies, as well as from local fire fighting agencies, such as Volunteer Fire Departments. The information collected for the Annual Wildfire Summary Report will include the number of fires to which the State or local fire fighting agencies responded within the fiscal year; the types of fires, such as timber, structural, or grassland fires to which the fire fighters will have responded; the sizes of the fires in acres; the causes of the fires, such as lightning, campfire, or arson; and the costs associated with suppressing the fires.

Data gathered in this information collection are not available from other sources.

Estimate of Annual Burden: 30 minutes.

Type of Respondents: State fire marshals.

Estimated Annual Number of Responses: 50.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 25 hours.

Comment Is Invited

The agency invites comments on the following: (a) Whether the proposed collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Use of Comments

All comments received in response to this notice, including names and addresses when provided, will become a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Dated: June 14, 2000.

Robin L. Thompson,

Associate Deputy Chief, State and Private Forestry.

National Agricultural Statistics Service

Notice of Intent To Reinstate and Change an Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995), this notice announces the intent of the National Agricultural Statistics Service (NASS) to reinstate with change an information collection, the Agricultural Practices Survey.

DATES: Comments on this notice must be received by August 25, 2000, to be assured of consideration.

ADDITIONAL INFORMATION OR COMMENTS: Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 4117 South Building, Washington, D.C. 20250-2000, (202) 720-4333.

SUPPLEMENTARY INFORMATION:

Title: The Agricultural Practices Survey.

OMB Control Number: 0535-0239.

Type of Request: Intent to Reinstate and Change an Information Collection.

Abstract: The Agricultural Practices Survey will be conducted in late 2000 and early 2001 in 15 states: Alabama, Arizona, California, Florida, Georgia, Michigan, New Jersey, New York, North Carolina, Oregon, South Carolina, Texas, Washington, and Wisconsin. This survey complies with President Clinton's October 1997 directive, "Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables." The purpose of the survey is to analyze data on agricultural

practices related to microbial food safety. Data will be collected on sources of vegetable microbial contamination such as water; manure, worker, field and facility sanitation, and crop identification systems.

NASS conducted a similar survey in the spring of 2000 to begin to establish a baseline of current agricultural practices in the fruit and vegetable industry. The 2001 effort will target more specific production practices involving fresh market vegetable production. NASS will summarize the 15-state survey data and publish estimates of frequency of operations carrying out basic agricultural practices. Summarized aggregated data will be made available to the Food and Drug Administration (FDA) and the United States Department of Agriculture (USDA). FDA will use the summary data to analyze current agricultural practices and to enhance the baseline established to evaluate changes in agricultural practices. USDA will use the data to develop educational outreach materials for fresh market vegetable growers and packers.

These data will be collected under the authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 60 minutes per response.

Respondents: Fresh market vegetable growers and packinghouses.

Estimated Number of Respondents: 8,000.

Estimated Total Annual Burden on Respondents: 6,600 hours.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the Agency OMB Clearance Officer, at (202) 720-5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: Ginny McBride, Agency OMB Clearance Officer, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 4162 South Building, Washington, D.C. 20250-2000.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., May 16, 2000.

Rich Allen,

Associate Administrator.

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent to Seek Approval To Conduct an Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995), this notice announces the intent of the National Agricultural Statistics Service (NASS) to request approval for an information collection, the Childhood Agricultural Injury Study of Minority Farm Operators.

DATES: Comments on this notice must be received by August 25, 2000, to be assured of consideration.

ADDITIONAL INFORMATION OR COMMENTS:

Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 4117 South Building, Washington, DC 20250-2000, (202) 720-4333.

SUPPLEMENTARY INFORMATION:

Title: Childhood Agricultural Injury Study of Minority Farm Operators.

Type of Request: Intent to Seek Approval to Conduct an Information Collection.

Abstract: The Childhood Agricultural Injury Study of Minority Farm Operators is designed to provide estimates of childhood nonfatal injury incidence and description of injury occurring to children less than 20 years of age who reside, work, or visit farms operated by minorities. Data will be

collected from all 50 states. Data will relate to accidents and injuries occurring during the 2000 calendar year. These data will be used by the National Institute of Occupational Safety and Health to establish a measure of the number and rate of childhood injuries associated with production agriculture, study the specific types of injuries sustained, and generate reports and disseminate information to all interested parties concerning the finding of this study.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 minutes per response.

Respondents: Farms.

Estimated Number of Respondents: 50,000.

Estimated Total Annual Burden on Respondents: 2,500 hours.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the Agency OMB Clearance Officer, at (202) 720-5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: Ginny McBride, Agency OMB Clearance Officer, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 4162 South Building, Washington, DC 20250-2000.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., June 1, 2000.

Rich Allen,

Associate Administrator.

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Notice of Proposed Change to the Natural Resources Conservation Service's National Handbook of Conservation Practices

AGENCY: Natural Resources Conservation Service (NRCS), U.S. Department of Agriculture, New York State Office.

ACTION: Notice of availability of proposed changes in the NRCS National Handbook of Conservation Practices, Section IV of the New York State NRCS Field Office Technical Guide (FOTG) for review and comment.

SUMMARY: It is the intention of NRCS to issue a revised conservation practice standard in its National Handbook of Conservation Practices. This revised standard is: Streambank and Shoreline Protection (NY580).

DATES: Comments will be received for a 30-day period commencing on June 21, 2000.

FOR FURTHER INFORMATION CONTACT:

Inquire in writing to Richard D. Swenson, State Conservationist, Natural Resources Conservation Service, (NRCS), 441 S. Salina Street, Fifth Floor, Suite 354, Syracuse, New York, 13202-2450.

A copy of this standard is available from the above individual.

SUPPLEMENTARY INFORMATION: Section 343 of the Federal Agricultural Improvement and Reform Act of 1996 states that revisions made after enactment of the law to NRCS State Technical Guides used to carry out highly erodible land and wetland provisions of the law shall be made available for public review and comment. For the next 30 days the NRCS will receive comments relative to the proposed changes. Following that period a determination will be made by the NRCS regarding disposition of those comments and a final determination of change will be made.

Dated: June 6, 2000.

Richard D. Swenson,

State Conservationist, Natural Resources Conservation Service, Syracuse, NY.
