

such that outflow from the project approximates inflow. The project bypasses approximately 680 feet of the Salmon Falls River. The existing license requires the licensee to release: (1) A continuous minimum flow of 10 cubic feet per second (cfs) or inflow, whichever is less, from the dam to the bypassed reach via a 5-foot, 9-inch wide by 5-inch deep notch in the flashboards; and (2) a minimum flow of 115 cfs or inflow, whichever is less, through the powerhouse to the downstream reach. When inflow falls below the minimum hydraulic capacity of the powerhouse (80 cfs), the minimum flow requirement for the downstream reach is met by releasing flows over the dam. The average annual generation was 5,837,900 kilowatt-hours for the period of record from 2005 to 2018.

The Town proposes to: (1) Continue operating the project in a run-of-river mode; (2) release a minimum flow of 35 cfs, or inflow, whichever is less into the bypassed reach to protect and enhance aquatic habitat; (3) install and operate an upstream eel ramp; (4) implement targeted nightly shutdowns for the protection of downstream migrating eels in September and October; and (5) construct a downstream fish bypass structure to pass eels and resident fish into the bypassed reach of the project. The Town also proposes to conduct a one-season tagging study to determine whether river herring and American shad can migrate upstream through the bypassed reach to the project dam.

Green Mountain Power estimates that the proposed measures would result in an average annual generation loss of approximately 759,000 MWh and will cost \$98,500 per year for operation and maintenance.

o. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is also available for inspection and reproduction at the address in item h above.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

p. *Procedural schedule and final amendments*: The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Issue Deficiency Letter (if necessary)—September 2019
Request for Additional Information—October 2019
Issue Acceptance Letter—January 2020
Issue Scoping Document 1 for Comments—February 2020
Request Additional Information (if necessary)—April 2020
Issue Scoping Document 2—May 2020
Notice that Application is Ready for Environmental Analysis—May 2020
Notice of the Availability of Environmental Assessment—November 2020

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: September 12, 2019.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ID–8173–001]

Notice of Filing: Rogier, Daniel J.

Take notice that on September 11, 2019, Daniel J. Rogier, filed an, application for authorization to hold interlocking positions, pursuant to section 305(b) of the Federal Power Act, 16 U.S.C. 825d(b) (2018) and section 45.8 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR part 45.8 (2019).

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically

should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on October 2, 2019.

Dated: September 12, 2019.

Kimberly D. Bose,

Secretary.
