

to reduce the severity of injury from swings impacting people on their paths; this is added in section 5.3.8.

The Commission concludes that the suggested change from “belt seat” to “swing seats” would require additional changes throughout the Handbook to adequately address safety issues. For instance, the examples of age-appropriate equipment in Table 1 describe the appropriateness of belt swings; Table 7 describes minimum clearance dimensions for belt swings; and the use zone for belt swings is described in section 5.3.8.3.3. Removing specific recommendations for belt swings in section 5.3.8.3.1 would raise a question about the specific mention of belt swings in these sections. Generalizing the recommendations in these other sections is not always logical. Therefore, the change will not be made. The Commission also rejects the recommendation to allow general to-fro swing seats to be multi-user because section 5.3.8.3.1 addresses belt seats only, and belt seats can only accommodate a single user safely.

In addition, the Commission will maintain the current pivot point height recommendations for bucket seats to ensure toddlers are protected from potentially hazardous falls because caregivers are unlikely to distinguish full bucket seats intended for toddlers from full bucket seats intended for older pre-school age children.

The Commission agrees that small playgrounds with only a single swing bay may include different types of swings in the same bay with reduced risk, the corresponding change is made in section 5.3.8.3.2 to state that “when possible,” full bucket seat swings should be in separate structures or bays. Section 5.3.8.4 on multi-axis swings is also revised to include all types of multi-axis swings, including tire swings.

Federal Energy Regulatory Commission

[Project No. 5000-078]

Ampersand Kayuta Lake Hydro LLC; Notice of Intent To Prepare an Environmental Assessment

On December 17, 2024, Ampersand Kayuta Lake Hydro LLC, licensee, filed a surrender application for the Kayuta Lake Project No. 5000. The project is located on the Black River near Boonville, Oneida County, New York. The project does not occupy federal lands.

Following the 2022 filing of a Notice of Intent and Pre-Application Document

for relicensing the project and continued consultation with parties regarding potential licensing recommendations, the licensee ultimately determined that future licensing conditions would make the project uneconomic. Alternatively, the licensee proposes to surrender the project license. The project dam is owned by the New York State Canal Corporation (NYSCC) and would return to the NYSCC's jurisdiction. The licensee proposes to remove all generating equipment and leave in place the recreation facilities at the project. On March 12, 2025, the Commission issued a public notice for the proposed surrender, accepted the application for filing, and solicited comments, motions to intervene, and protests. Several filings were made in response to the Commission's notice. The current license expires on May 31, 2026.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by December 10, 2025. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members, and others to access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Any questions regarding this notice may be directed to Diana Shannon at 202-502-6136 or diana.shannon@ferc.gov.

Dated: August 8, 2025.
