

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 2, 2009 (74 FR 31730), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OECA-2009-0280, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Enforcement and Compliance Docket is 202-566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Annual Public Water System Compliance Report (Reinstatement).

ICR numbers: EPA ICR No. 1812.04, OMB Control No. 2020-0020.

ICR Status: This is a request to reinstate an ICR that expired on June 30, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in

certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 1414 (c)(3)(A) of the Safe Drinking Water Act requires that each state (a term that includes states, commonwealths and territories) that has primary enforcement authority under the Act shall prepare, make readily available to the public, and submit to the Administrator of EPA, an annual report of violations of national primary drinking water regulations in the state. These Annual State Public Water System Compliance Reports are to include violations of maximum contaminant levels, treatment requirements, variances and exemptions, and monitoring requirements determined to be significant by the Administrator after consultation with the states. To minimize a state's burden in preparing its annual statutorily-required report, EPA issued guidance that explains what Section 1414(c)(3)(A) requires and provides model language and reporting templates. EPA also annually makes available to the states a computer query that generates for each state (from information states are already separately required to submit to EPA's national database on a quarterly basis) the required violations information in a table consistent with the reporting template in EPA's guidance.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 80 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State, local and/or Tribal Governments

Estimated Number of Respondents: 55.

Frequency of Response: Yearly.

Estimated Total Annual Hour Burden: 4,400.

Estimated Total Annual Cost: \$232,303, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 80 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to miscalculating the number of states required to submit reports. Wyoming was counted in the previous ICR as a respondent although it doesn't have primacy for the drinking water program and the US EPA submits its annual report. The number of respondents should be fifty-five entities (49 states, 5 territories and one tribe). The change is an adjustment to the estimates

Dated: August 18, 2010.

Joseph A. Sierra,

Acting Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 22, 2009 (74 FR 48265), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OA-2006-0278, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Office of Environmental Information Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Office of Environmental Information Docket is 202-566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further

information about the electronic docket, go to <http://www.regulations.gov>.

Title: Minority Business Enterprise/ Woman Business Enterprise (MBE/WBE) Utilization Under Federal Grants, Cooperative Agreements, and Interagency Agreements (Renewal).

ICR numbers: EPA ICR No. 2212.03, OMB Control No. 2090-0025.

ICR Status: This ICR seeks reinstatement of a previously approved information collection activity that expired on October 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: All EPA financial assistance agreement recipients are required to make good faith efforts to assure that small, minority and women owned businesses are used, when possible, as sources of construction, services, equipment, and supplies. The completion and submission of EPA Form 5700-52A is mandatory. The information collected by EPA Form 5700-52A is used to compile data concerning the utilization of minority and women owned businesses as contractors and subcontractors under procurements funded by EPA financial assistance agreements pursuant to Executive Orders 11625, 12138, and 12432, and Public Laws 101-507 and 102-389. The effectiveness of EPA's MBE/WBE Program is measured through this reporting requirement. The modifications to the form were made to simplify and shorten the form itself. The instructions in the modified form also provide more information about questions frequently asked by respondents.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 3,600.

Frequency of response: Depending on the type of financial assistance received, respondents either report on an annual, semi-annual, or quarterly basis.

Estimated total average number of responses for each respondent: 2.5 average responses per year, including annual and quarterly respondents.

Estimated total annual burden hours: 9,000.

Estimated total annual costs: \$606,960. This includes \$0 annualized capital startup costs, \$0 annualized O&M costs, and \$606,960 annualized labor costs.

Changes in the Estimates: The estimates reflect a decrease in Respondent and Agency burden hours due to a transition from quarterly reporting to semi-annual reporting. There was an increase in Respondent total costs per year due to the use of an updated wage rate for employee compensation. The current rate (\$48.17) was taken from the December 2009 Bureau of Labor Statistics release, while the prior estimate utilized the March 2005 wage rate (\$36.28). In addition, the estimates reflect a decrease in Agency burden hours and costs due to a transition from quarterly reporting to semi-annual reporting. While there is still a percentage of Respondents that will continue to report quarterly, this group will diminish over time because only those agreements awarded prior to May 27, 2008 may still report quarterly. The burden estimate was also revised to include annual, semi-annual, and quarterly reporting. These changes are categorized as adjustments. We received no comments regarding the form from our consultation efforts or from public comments, therefore, the hours to gather information to complete the form were not changed. The total burden hours remains at 1.5 burden hours.

Dated: August 18, 2010.

Title: Emission Control System Performance Warranty Regulations and Voluntary Aftermarket Part Certification Program (Renewal).

ICR numbers: EPA ICR No. 0116.09, OMB Control No. 2060-0060.

ICR Status: This ICR is scheduled to expire on August 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the

related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Under Section 206(a) of the Clean Air Act (42 U.S.C. 7521), on-highway engine and vehicle manufacturers may not legally introduce their products into U.S. commerce unless EPA has certified that their production complies with applicable emission standards. Per section 207(a), original vehicle manufacturers must warrant that vehicles are free from defects in materials and workmanship that would cause the vehicle not to comply with emission regulations during its useful life. Section 207(a) directs EPA to provide certification to those manufacturers or builders of automotive aftermarket parts that demonstrate that the installation and use of their products will not cause failure of the engine or vehicle to comply with emission standards. An aftermarket part is any part offered for sale for installation in or on a motor vehicle after such vehicle has left the vehicle manufacturer's production line (40 CFR 85.2113(b)). Participation in the aftermarket certification program is voluntary. Aftermarket part manufacturers or builders electing to participate conduct emission and durability testing as described in 40 CFR part 85, subpart V, and submit data about their products and testing procedures.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 547 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Importers (including Independent Commercial Importers) of light duty vehicles or engines, light duty trucks or engines, and highway motorcycles or engines.
