SUPPLEMENTARY INFORMATION:

I. Background

On June 25, 2012, the NTSB published a notice indicating its intent to undertake a review of all NTSB regulations to ensure they are updated. 77 FR 37865. The NTSB initiated this review in accordance with Executive Order 13579, "Regulation and Independent Regulatory Agencies" (76 FR 41587, July 14, 2011). The purpose of Executive Order 13579 is to ensure all agencies adhere to the key principles found in Executive Order 13563, "Improving Regulation and Regulatory Review" (76 FR 3821, January 21, 2011), which include promoting public participation in rulemaking, improving integration and innovation, promoting flexibility and freedom of choice, and ensuring scientific integrity during the rulemaking process in order to create a regulatory system that protects public health, welfare, safety, and the environment while promoting economic growth, innovation, competitiveness, and job creation. The NTSB explained in its June 25, 2012, notice that it is committed to ensuring its regulations remain updated and comply with these principles.

The NTSB's notice concerning its plan for reviewing all NTSB regulations indicated the NTSB would specifically conduct a comprehensive review of 49 CFR part 831, which describes the NTSB's investigative process. The NTSB completed this review and published an NPRM proposing various changes to part 831 on August 12, 2014. 79 FR 47064.

The NTSB published an additional notice in the **Federal Register** on January 8, 2013, describing the NTSB's plan for updating all regulations. 78 FR 1193. In accordance with these two notices published in the **Federal Register**, the NTSB reviewed all sections within 49 CFR part 845, in the interest of ensuring they accomplish the objectives stated in Executive Order 13563. The NTSB publishes this NPRM in accordance with the NTSB's plan.
