SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on November 27, 2024 at 89 FR 93648.

A. Overview of Information Collection

Title of Information Collection: Manufactured Housing Survey.
OMB Approval Number: 2528–0029.
Type of Request: Extension of a currently approved collection.
Form Number: C–MH–9A.
Description of the need for the information and proposed use: The Manufactured Housing Survey collects data on the characteristics of newly manufactured homes placed for residential use. Key data collected includes sales price and the number of units placed and sold within 4 months of shipment. Other selected housing characteristics collected include size, location, and titling. HUD is authorized to collect these statistics under the “Housing and Community Development Act of 1980,” Title 42 U.S.C. 5424 note (see Attachment 3), which provides the Secretary discretion to take necessary actions to ensure the public is aware of the distinctions between the types of factory-built housing. This allows HUD to collect and report manufactured home sales price information for the nation, Census Regions, States, and selected metropolitan statistical areas, and to monitor whether new manufactured homes are being placed on owned rather than rented lots. HUD also used these data to monitor total

housing production and its affordability. Furthermore, the Manufactured Housing Survey serves as a basis for HUD’s mandated indexing of loan limits. Section 2145(b) of the Housing and Economic Recovery Act (HERA) of 2008 requires HUD to develop a method of indexing to annually adjust Title I manufactured home loan limits. This index is partially based on manufactured housing price data collected by this survey. Section 2145 of the HERA of 2008 also amends the maximum loan limits for manufactured home loans insured under Title I. The Final Rule, entitled Indexing Methodology for Title I Manufactured Home Loan Limits, was published in the **Federal Register** on February 28, 2024. This Rule established separate indexing methodologies to annually calculate future loan limits for Manufactured Homes Loans, Manufactured Lot Loans and Manufactured Home and Lot Combination Loans for the Title I Manufactured Home Loan Program. Single- and double-section price data from this survey are used to determine maximum loan amounts for Title I Manufactured Home Loans. HUD implemented the revised loan limits, as shown below, for all manufactured home loans for which applications are received on or after March 29, 2024.

A. Overview of Information Collection
Title of Information Collection: CDBG Urban County Qualification/New York Towns Qualification/Requalification Process, Notice.
OMB Approval Number: 2506–0170.
Type of Request: Reinstatement with change.
Form Number: N/A.
Description of the need for the information and proposed use: The Housing and Community Development Act of 1974, as amended (the Act), at sections 102(a)(6) and 102(e) requires that any county seeking qualification as an urban county notify each unit of general local government within the

county that such unit may elect to have its population excluded from that of the urban county. Section 102(d) of the Act specifies that the period of qualification will be three years. Based on these statutory provisions, counties seeking qualification or requalification as urban counties under the CDBG program must provide information to HUD every three years identifying the units of general local governments (UGLGs) within the county participating as a part of the county for purposes of receiving CDBG funds. The population of UGLGs for each eligible urban county is used in HUD’s allocation of CDBG funds for all entitlement and State CDBG grantees.
New York Towns may qualify as metropolitan cities if they are able to secure the participation of all of the villages located within their boundaries. Any New York Town that is located in an urban county may choose to leave that urban county when that county is requalifying. A New York Town will be required to notify the urban county in advance of its decision to decline participation in the urban county’s CDBG program and complete the metropolitan city qualification process.
