Description: ACF implemented the FCR within the Federal Parent Locator

Service (FPLS) on October 1, 1998, pursuant to federal law. The FCR is a national database of information pertaining to child support cases processed by state child support agencies, referred to as “IV–D” cases, and non-IV–D support orders privately established or modified by courts or tribunals on or after October 1, 1998. FCR information is submitted by each State Case Registry (SCR), which is a central registry of child support orders and cases. The FCR automatically compares new SCR submissions to existing FCR information and notifies state agencies if an IV–D case participant in the state appears as a participant in an IV–D or non-IV–D case in another state.

Respondents: State child support enforcement agencies.
