

**Register**, thereby becoming effective July 21, 2025.<sup>2</sup>

With this order, FinCEN is extending the effective date for all three orders an additional 45 days, from July 21, 2025, to September 4, 2025. A copy of this order will be published in the **Federal Register**. To the extent that CIBanco, Intercam, Vector, or parties have information relevant to this order, they may submit it to FinCEN at [www.fincen.gov/contact](http://www.fincen.gov/contact).

## II. Order

### A. Definitions

#### 1. June 25, 2025 Orders

This order defines June 25, 2025, Orders as the three orders published in the **Federal Register** on June 30, 2025, prohibiting certain transmittals of funds involving, respectively, CIBanco S.A., Institución De Banca Multiple, Intercam Banco S.A., Institución de Banca Multiple, and Vector Casa de Bolsa, S.A. de C.V. and published, respectively, at 90 FR 27770, 90 FR 27777, and 90 FR 27764.

#### 2. Meaning of Other Terms

All terms used but not otherwise defined herein shall have the meaning set forth in 31 CFR Chapter X, 31 U.S.C. 5312, and 21 U.S.C. 2302.

### B. Amendment of Order

This order amends the June 25, 2025, Orders by extending the effective date of all three actions by 45 days, to September 4, 2025.

All other provisions of the June 25, 2025, Orders remain unchanged.

**Jimmy L. Kirby,**

*Deputy Director, Financial Crimes Enforcement Network.*

#### 50 CFR Part 622

[RTID 0648-XE986; Docket No. 240506-0129]

#### 2025 Recreational Harvest Closure for Gulf Gag

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS implements an accountability measure (AM) for the gag recreational sector in the exclusive economic zone (EEZ) of the Gulf for the 2025 fishing year. NMFS has projected that the 2025 recreational annual catch target (ACT) for gag will be reached by September 15, 2025. Therefore, NMFS closes the recreational sector for Gulf gag on September 15, 2025, and it will remain closed through the end of the fishing year on December 31, 2025. This closure is necessary to protect the Gulf gag resource.

**DATES:** This temporary rule is effective from 12:01 a.m. local time on September 15, 2025, through December 31, 2025.

**FOR FURTHER INFORMATION CONTACT:** Frank Helies, NMFS Southeast Regional Office, 727-824-5305, [frank.helies@noaa.gov](mailto:frank.helies@noaa.gov).

**SUPPLEMENTARY INFORMATION:** NMFS manages the Gulf reef fish fishery that includes gag under the Fishery Management Plan for the Reef Fish Resources of the Gulf (FMP). The Gulf Council (Council) prepared the FMP, which was approved by the Secretary of Commerce, and NMFS implements the FMP under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) through regulations at 50 CFR part 622. All weights described in this temporary rule are in gutted weight.

On June 1, 2024, NMFS implemented a final rule for Amendment 56 to the FMP that modified management of gag in the Gulf EEZ (89 FR 40419, May 10, 2024). For gag, that final rule revised the commercial and recreational catch levels, the recreational AMs, and the recreational fishing season. For the recreational sector, the unadjusted recreational annual catch limit (ACL) for 2025 is 399,000 pounds (lb)(180,983 kilograms (kg)), and the recreational ACT is 319,000 lb (144,696 kg) (50 CFR 622.41(d)(2)(i)).

The recreational AM states that if recreational landings reach or are projected to reach the applicable recreational ACT, then NMFS will close the recreational sector for the remainder of the fishing year (50 CFR 622.41(d)(2)(iii)). The recreational AMs also state that if NMFS estimates that gag recreational landings have exceeded the applicable recreational ACL and gag is overfished, then in the following fishing year, the recreational ACL and recreational ACT will be reduced by the amount of the recreational ACL overage in the prior fishing year unless the best scientific information available determines that greater, lesser, or no overage adjustment is necessary (50 CFR 622.41(d)(2)(iii)). The final rule also implemented a seasonal closure of the gag recreational sector to prohibit harvest annually from January 1 through August 31 in the Gulf EEZ (50 CFR 622.34(e)).

In the 2024 fishing year, in accordance with the recreational AM at 50 CFR 622.41(d)(2)(iii), NMFS reduced the recreational ACL and ACT for the 2024 fishing year based on an overage of the recreational ACL during the 2023 fishing year (89 FR 53883, June 28, 2024). For the 2024 fishing year, the resulting adjusted recreational ACL was 163,376 lb (74,106 kg) and the adjusted recreational ACT was 105,376 lb (47,798 kg). NMFS has determined that in 2024, recreational landings exceeded the 2024 adjusted ACL by 88,891 lb (40,320 kg). Therefore, for the 2025 fishing year, the adjusted recreational ACL is 310,009 lb (140,618 kg) and the adjusted recreational ACT is 230,009 lb (104,330 kg).

The 2025 recreational fishing season opens on September 1, and NMFS projects that the 2025 adjusted recreational ACT for Gulf will be reached as of September 15, 2025. This closure date was informed by a review of 2022–2024 landings data derived from multiple sources including Marine Recreational Information Program charter data, Texas, Parks and Wildlife and Louisiana Creel surveys, the Southeast Region Headboat Survey, and Florida's State Reef Fish Survey. This information generated closure dates ranging from September 14, 2025, to September 26, 2025. To decrease the likelihood of another recreational ACL overage in 2025 and required reduction to the recreational ACL and ACT in 2026, NMFS is acting conservatively and implementing a September 15 closure date. Accordingly, this temporary rule closes the recreational sector for Gulf gag effective at 12:01 a.m., local time, on September 15, 2025,

<sup>2</sup> *Imposition of Special Measure Prohibiting Certain Transmittals of Funds Involving CIBanco S.A., Institución De Banca Multiple*, 90 FR 27770 (June 30, 2025); *Imposition of Special Measure Prohibiting Certain Transmittals of Funds Involving Intercam Banco S.A., Institución de Banca Multiple*, 90 FR 27777 (June 30, 2025); *Imposition of Special Measure Prohibiting Certain Transmittals of Funds Involving Vector Casa de Bolsa, S.A. de C.V.*, 90 FR 27764 (June 30, 2025).

through the end of the fishing year on December 31, 2025.

During the recreational closure, the bag and possession limits of gag in or from the Gulf EEZ are zero. The prohibition on possession of gag also applies in state waters of the Gulf for any vessel issued a valid Federal charter vessel/headboat permit for Gulf reef fish.

#### Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 622.41(d)(2)(ii) and (iii), which were issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment are unnecessary and contrary to the public interest. Such procedures are unnecessary because the regulations associated with the closure of recreational harvest of gag at 50 CFR 622.41(d)(2)(ii) and the reduction of the gag recreational ACL and ACT at 50 CFR 622.41(d)(2)(iii) have already been subject to notice and public comment, and all that remains is to notify the public of the closure based on the adjusted ACT. Prior notice and opportunity for public comment are contrary to the public interest. Prior notice and opportunity for public comment would require time and those affected by the length of the recreational fishing seasons, particularly for-hire operations that book trips for clients in advance, need as much notice as NMFS is able to provide to adjust their business plans to account for changes to the recreational fishing season.

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 648

[Docket No. 250623–0112; RTID 0648–XE999]

#### Fisheries of the Northeastern United States; Blueline Tilefish Fishery; In-Season Adjustment to the Blueline Tilefish Commercial Possession Limit

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; in-season adjustment.

**SUMMARY:** NMFS announces that the commercial per-trip possession limit for the blueline tilefish fishery in the Greater Atlantic Regional Fisheries Office Tilefish Management Unit (*i.e.*, north of the Virginia/North Carolina border) has been reduced for the remainder of the 2025 fishing year. This announcement informs the public of the reduced blueline tilefish possession limit. This action is intended to prevent over-harvest of blueline tilefish commercial quota for the fishing year.

**DATES:** Effective July 11, 2025 through December 31, 2025.

**FOR FURTHER INFORMATION CONTACT:**

Matthew Rigdon, Fishery Management Specialist, [matthew.rigdon@noaa.gov](mailto:matthew.rigdon@noaa.gov), (978) 281–9336.

**SUPPLEMENTARY INFORMATION:**

Regulations for the blueline tilefish fishery are at 50 CFR part 648. The regulations at § 648.295(b)(2)(i) state that when NMFS projects that blueline tilefish commercial catch will reach 70 percent of the total allowable landings (TAL), the Regional Administrator may reduce the possession limit for the commercial blueline tilefish fishery for the remainder of the fishing year or until 100 percent of the TAL is landed. When this occurs, the blueline tilefish possession limit is reduced from 500 pounds (lb) (226.7 kilograms (kg)) to 300 lb (136.1 kg) per trip in the Tilefish Management Unit. Fish must have head and fins attached, but may be gutted. NMFS monitors the blueline tilefish fishery catch based on dealer reports, state data, and other available information.

The Regional Administrator has determined, based on dealer reports and

other available information, that the blueline tilefish commercial fishery has landed 70 percent of the TAL. Upon publication of this action in the **Federal Register**, vessels may not possess on board or land more than 300 lb (136.1 kg) per trip of blueline tilefish in or from the Greater Atlantic Regional Fisheries Office Tilefish Management Unit through December 31, 2025.

#### Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA). This action implements provisions of 50 CFR 648.295, which were issued pursuant to section 304(b) of the MSA, and is exempt from review under Executive Order 12866.

NMFS finds good cause pursuant to 5 U.S.C. 553(b)(B) and (d)(3) to waive prior notice and the opportunity for public comment and the delayed effectiveness period because it would be contrary to the public interest and impracticable. Data and other information indicating the blueline tilefish commercial fishery will have landed 70 percent of the TAL have only recently become available. Landings data are updated by dealer reports on a weekly basis, and NMFS monitors data as catch increases toward the limit. This action is routine and formulaic. The regulations at § 648.295(b)(2)(i) provide for such action to slow down catch as the fishery approaches its TAL, reducing the likelihood that the fishery will need to be shut down before the end of the fishing year, and to help to ensure that blueline tilefish commercial vessels do not exceed the 2025 TAL. If implementation of this action is delayed, the TAL for the 2025 fishing year may be exceeded, thereby undermining the conservation objectives of the Tilefish Fishery Management Plan. In addition, the public had prior notice and full opportunity to comment on this process when the provisions regarding in-season adjustments and the 2025 quota levels were put in place (90 FR 27257, June 26, 2025).
