## DEPARTMENT OF VETERANS AFFAIRS

### 38 CFR Part 80

RIN 2900-AR68

#### Veteran and Spouse Transitional Assistance Grant Program

**AGENCY:** Department of Veterans Affairs.

**ACTION:** Final rule.

**SUMMARY:** The Department of Veterans Affairs (VA) is implementing provisions in the Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act to establish the Veteran and Spouse Transitional Assistance Grant Program (VSTAGP). This final rule addresses general grant application procedures and requirements to apply for VSTAGP grant funding and adopts the proposed rule with some corrections and clarifying changes.

**DATES:** This rule is effective June 12, 2024.

**FOR FURTHER INFORMATION CONTACT:**

Lillian Miesemer, Senior Management and Program Analyst, Outreach, Transition and Economic Development, Veterans Benefits Administration, 1800 G Street SW, Washington, DC 20006; 202-461-9558 (this is not a toll-free telephone number). If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS) toll-free at 1-800-877-8339.

**SUPPLEMENTARY INFORMATION:** On July 5, 2023, VA published a proposed rule in the **Federal Register** (88 FR 42891) that would establish the VSTAGP program in 38 CFR 80.1 through 80.17 pursuant to section 4304 of Public Law 116-315, the *Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020*, which was enacted on January 5, 2021.

VA provided a 30-day comment period, which ended on August 4, 2023. VA received four comments on the proposed rule. One of the four

comments was strongly in favor of the rule. We thank the commenter for their support and do not make any changes based on that comment.

The second of the four comments suggested grant recipients must have access to separating Service members and recently separated Service members. More specifically, the commenter advocated in favor of a means by which grant recipients can identify the geographical areas where separating Service members have relocated. Additionally, the commenter suggested that the Department of Defense (DoD) and VA should collaborate to encourage those enrolled in the DoD Transition Assistance Program (TAP) to take advantage of opportunities provided by recipients of grants under VA's VSTAGP program.

As noted in the proposed rule, a Notice of Funding Opportunity (NOFO) will be posted at *Grants.gov* (<https://www.grants.gov>) in accordance with § 80.4 of the proposed rule. The NOFO will require applicants for grant funding to submit proposals addressing detailed outreach strategies appropriate and tailored to the specific service delivery area served by the applicant. To meet this requirement, VA will recommend in the NOFO that applicants conduct an environmental scan as a component or means of strategic planning to gather information about available supports and services within the proposed geographic area to be served. Furthermore, the NOFO will require applicants for grant funding to demonstrate how their proposed program will promote active outreach to, recruitment of, and engagement with former members of the U.S. Armed Forces who are separated, retired, or discharged, as well as their spouses. Applicants for grant funding must design, develop, and execute program promotion and awareness activities as a part of their outreach. The NOFO will require applicants for grant funding to submit proposals explaining how their program will reach out to potentially eligible individuals, and how they will collaborate with local entities that may serve former members of the U.S. Armed Forces as well as their spouses (e.g., local military bases, VA Regional Offices, Veterans Service Organizations (VSO), faith-based organizations, social service agencies, community-based clinics, other job-training organizations), within their proposed geographic service delivery area to introduce the program to eligible participants. VA will encourage applicants to reach out to unique sub-groups of veterans and/or spouses who are likely experiencing inequitable access to jobs, job training

programs, and/or other employment services in the proposed service area.

Thus, VA will not be providing information regarding the geographical areas where separating Service members have relocated. Grant applicants will have to design, develop, and execute program promotion and awareness activities as part of their proposal, to include strategies for reaching the relevant population within their proposed geographic service delivery area. VA has no specific plans to address opportunities provided by VSTAGP grant recipients as part of the TAP curriculum but, as noted above, intends that grant applicants will be responsible for developing strategies for promotion and awareness of such services. In any event, the comments relating to how applicants are supposed to identify certain areas or populations to serve, as well as the comments relating to encouraging TAP participants to take advantage of opportunities resulting from VSTAGP grants, are beyond the scope of the rulemaking. We do not make any changes based on these comments.

The third and fourth comments were supportive of the proposed rule. The comments advocated for widespread accessibility of applications and establishment of clear evaluation criteria. VA agrees with both comments. To address the comment regarding the accessibility of applications, as required in § 80.4 of the proposed rule, and in accordance with 2 CFR 200.204, VA will publish a NOFO at *Grants.gov* (<https://www.grants.gov>). The NOFO will provide clear application procedures including detailed guidance and resources to help applicants apply for funding and navigate the application process.

Additionally, to address the comment regarding clear application criteria the NOFO will include detailed scoring criteria as required in § 80.7, with clearly identified point values for each evaluation criterion. VA will establish procedures to assess the technical merit of applications to ensure an objective review of applications. The NOFO will contain information regarding the evaluative criteria that will be used by the review panel to evaluate submitted applications to help applicants understand the standards against which an application will be scored. VA will execute a merit review process for all responsive applications, with the objective of selecting recipients most likely to be successful in delivering results based on the program objectives. See 2 CFR 200.205. This will ensure that: (1) applicants for grant funding have the opportunity to submit

proposals responsive to the solicitation, and (2) the application review process is clear and transparent to applicants.

Applicants will be able to view all application requirements in the NOFO once published to *Grants.gov* (<https://www.grants.gov>). We do not make any changes based on these comments.

VA is clarifying the definition of the term “institution of higher education (IHE),” as that term was defined in § 80.2(f) of the proposed rule as one of the various listed entities that would be eligible to receive a VSTAGP grant. In the proposed rule, VA had defined the term “IHE” in a general manner that referred to certain “public or private educational institution[s].” In the final rule, VA is clarifying that private educational institutions must be nonprofit. Specifically, VA adopts the established definition of IHE specified in 20 U.S.C. 1001 (“General definition of institution of higher education”), which provides that, to qualify, an educational institution must be “a public or other nonprofit institution,” *id.* 1001(a)(4); *see id.* 1001(b)(1). Clarifying that “IHE” refers to only public or other nonprofit educational institutions ensures that the IHE definition is aligned with the definitions of other possible grant recipients, which include government entities, nonprofit organizations, and nonprofit faith-based organizations. VA believes that applying standards to IHEs that are similar to those applied to other possible grant recipients will promote greater consistency in carrying out the purposes of this grant program in different locations nationwide.

In the heading for new part 80 and in § 80.1, we are correcting the erroneous reference to “Veteran Transitional Assistance Grant Program” in the proposed rule to “Veteran and Spouse Transitional Assistance Grant Program”. In §§ 80.2(h)(3), 80.7(b), 80.9 and 80.14, we are changing the use of “may” to “will” or “must” to be more definitive in those provisions. In § 80.5, we are also clarifying that there will be a limit of one application per submitting organization serving the same participant population and in the same geographic service area. In the third sentence of § 80.7(b), we are correcting the erroneous reference to “each selection” in the proposed rule to “each criterion”.

We also note that the proposed rule included two provisions which we inadvertently did not address in the preamble. In § 80.2(k), we define the term “In-demand industry sector or occupation” because the term is likely to be used in NOFOs. In § 80.3(f), we explain that a grant must be in an

amount that does not exceed 50 percent of the amount required by the grantee to provide the required services.

We are making technical changes in § 80.12(c) as proposed to remove material that is precatory, informational, or more appropriate for inclusion in the NOFO. We are thus removing the second sentence of the introductory text, paragraphs (1) and (2), and the second sentence of paragraph (3), and we are moving the first sentence of paragraph (c)(3), requiring grantees to participate in a VA-led evaluation, to the introductory text of paragraph (c).

VA adopts the proposed rule as final, with changes as discussed above.

#### **Executive Orders 12866, 13563 and 14094**

Executive Order 12866 (Regulatory Planning and Review) directs agencies to assess the costs and benefits of available regulatory alternatives and, when regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, and other advantages; distributive impacts; and equity). Executive Order 13563 (Improving Regulation and Regulatory Review) emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. Executive Order 14094 (Modernizing Regulatory Review) supplements and reaffirms the principles, structures, and definitions governing contemporary regulatory review established in Executive Orders 12866 and 13563. The Office of Information and Regulatory Affairs has determined that this rulemaking is a significant regulatory action under Executive Order 12866, as amended by Executive Order 14094. The Regulatory Impact Analysis associated with this rulemaking can be found as a supporting document at [www.regulations.gov](http://www.regulations.gov).

#### **Regulatory Flexibility Act**

The Secretary hereby certifies that this final rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (5 U.S.C. 601–612). Receiving or not receiving a grant is unlikely to have a significant economic impact on small entity applicants. Therefore, pursuant to 5 U.S.C. 605(b), the initial and final regulatory flexibility analysis requirements of 5 U.S.C. 603–604 do not apply.

#### **Unfunded Mandates**

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in the expenditure by State, local and Tribal governments, in the aggregate or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year. This final rule will have no such effect on State, local and Tribal governments or on the private sector.

#### **Paperwork Reduction Act**

This final rule contains provisions constituting three new collections of information and revisions to several current/valid collections of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521). Both the new and revised collections of information require approval by the Office of Management and Budget (OMB). Accordingly, under 44 U.S.C. 3507(d), VA has submitted a copy of this rulemaking action to OMB for review and approval. VA received no comments on the revised collections of information.

OMB has received the revised collections of information. OMB’s receipt of the revised collections of information is not an approval to conduct or sponsor an information collection under the Paperwork Reduction Act of 1995. In accordance with 5 CFR 1320, the revised collections of information associated with this rulemaking are not approved by OMB at this time. OMB’s approval of the revised collections of information will occur within 30 days after the final rulemaking publishes. If OMB does not approve the new collections of information as requested, VA will immediately remove the provision containing the new collections of information or take such other action as is directed by OMB.

This final rule also includes a provision constituting three new collections of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521). The new collections of information require approval by the Office of Management and Budget (OMB) and the assignment of a new OMB Control Number. Accordingly, under 44 U.S.C. 3507(d), VA has submitted a copy of this rulemaking to OMB for review and approval. VA received no comments on the new collections of information.

OMB Control Numbers 2900–0928, 2900–0929, and 2900–0930 have been assigned to the new collections of information associated with this final

rule. Assignment of these new OMB control numbers is not an approval to conduct or sponsor an information collection under the Paperwork Reduction Act of 1995. In accordance with 5 CFR 1320, the new collections of information associated with this rulemaking are not approved by OMB at this time. OMB's approval of the new collections of information will occur within 30 days after the final rulemaking publishes. If OMB does not approve the new collections of information as requested, VA will immediately remove the provision containing new collections of information or take such other action as is directed by OMB.

If VA decides to recover funds, VA will issue the grantee a notice of intent to recover VSTAGP grant funds. The grantee will then have 30 days from the date of the notice to submit documentation demonstrating why the VSTAGP grant funds should not be recovered. If the VSTAGP grantee does not respond or if the grantee responds, but VA determines the documentation is insufficient to establish compliance, VA will make a final determination to recover the VSTAGP grant funds. If VA determines that the grantee did not violate the grant agreement, VA will make a final determination not to recover the grant funds.

(c) *Prohibition of further payment of grant funds.* When VA determines that action will be taken to recover grant funds from a grantee, the grantee will be prohibited from receiving any further VSTAGP grant funds under this part until the grant funds are recovered and the condition that led to the recovery of the grant funds is resolved, unless the grant agreement has been terminated.
