

(Pub. L. 104–13), we invite the public and other Federal agencies to comment on proposed information collections. If you have comments or suggestions, they should address one or more of the following points: (a) Whether the proposed information collection is necessary for NARA to properly perform its functions; (b) our estimate of the burden of the proposed information collection and its accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether the collection affects small businesses.

We will summarize any comments you submit and include the summary in our request for OMB approval. All comments will become a matter of public record.

In this notice, we solicit comments concerning the following information collection:

*Title:* Independent researcher listing application.

*OMB number:* 3095–0054.

*Agency form numbers:* NA Form 14115 (Independent Researcher Listing Application).

*Type of review:* Regular.

*Affected public:* Individuals or households.

*Estimated number of respondents:* 300.

*Estimated time per response:* 10 minutes.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 50 hours.

*Abstract:* Collecting information to populate the independent researcher application listing is a service we provide to researchers and those who wish to hire them. In the past, at the request of customers, the National Archives made use of various lists of independent researchers who perform freelance research for hire in the Washington, DC, area. We sent these lists upon request to researchers who could not travel to the metropolitan area to conduct their own research. To better accommodate both the public and NARA staff in this process, the Archival Operations division of the National Archives began to maintain a listing of independent researchers who wished to participate. To populate that list, we allow interested independent researchers to provide their contact information for this purpose on NA Form 14115. Collecting contact and other key information from each independent researcher and providing such information to the public when appropriate increases researcher

business. This form is voluntary and is not a burden to an independent researcher who chooses to submit one. Inclusion on the list is not an endorsement by NARA. The listing is compiled and disseminated as a service to the public.

#### B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov/> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact

information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Requests to Agreement States and Non-Agreement States for Information." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 26, 2021 (86 FR 22077). On August 23, 2021 (86 FR 47164), the NRC published a **Federal Register** notice with a 30-day comment period. The NRC was delayed in submitting the renewal to OMB, therefore, the NRC is reissuing this information collection to provide the public the full 30 days to submit comments.

1. *The title of the information collection*: "Requests to Agreement States and Non-Agreement States for Information."
2. *OMB approval number*: 3150–0029.
3. *Type of submission*: Revision.
4. *The form number, if applicable*: Not applicable.
5. *How often the collection is required or requested*: One-time, on occasion.
6. *Who will be required or asked to respond*: 50 states, the District of Columbia, and Puerto Rico.
7. *The estimated number of annual responses*: 1,965.
8. *The estimated number of annual respondents*: 52.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 15,720.
10. *Abstract*: The NRC is requesting OMB approval of a plan for a generic collection of information. The need and practicality of the collection can be evaluated, but the details of the specific individual collections will not be known until a later time. The Agreement States and non-Agreement States will be asked on a one-time or as needed basis to respond to a specific incident, to gather information on licensing and inspection practices or

other technical information, or to provide comments on proposed policy and program updates. The results of such information requests, which are authorized under Section 274(b) of the Atomic Energy Act, will be utilized in part by the NRC in preparing responses to Congressional inquiries. In addition, the information can assist the Commission in its considerations and decisions involving Atomic Energy Act materials programs in an effort to make the national nuclear materials program more uniform and consistent.

Dated: November 17, 2021.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 30–10716; NRC–2020–0214]

### Sigma-Aldrich Company, Fort Mims Site

**AGENCY**: Nuclear Regulatory Commission.

**ACTION**: Environmental assessment and finding of no significant impact; issuance.

**SUMMARY**: The U.S. Nuclear Regulatory Commission (NRC) is considering amending the NRC's Materials License No. 24–16273–01, issued to Sigma-Aldrich Company (the licensee), for possession of byproduct material incident to radiological survey, storage of waste awaiting disposal, and decontamination, and remediation of the Fort Mims Site. The proposed amendment is to revise the decommissioning plan and terminate the license for the licensee's Fort Mims Site in Maryland Heights, Missouri. The NRC staff is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed action.

**DATES**: The EA and FONSI referenced in this document are available on November 23, 2021.

**ADDRESSES**: Please refer to Docket ID NRC–2020–0214 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:
