

appropriate entries. In accordance with 19 CFR 351.212(b), we have calculated importer-specific assessment rates. With respect to the constructed export price sales, we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct Customs to assess any resulting non-de minimis percentage margins against the entered Customs values for the subject merchandise on each of that importer's entries during the review period.

The Department's decision applies to all entries of merchandise subject to this review, or withdrawn from warehouse, for consumption on or after August 1, 1994 and before July 31, 1995. The Department will order the suspension of liquidation ended for all such entries and will instruct Customs to release any cash deposits or bonds.

For assessment purposes, we have calculated importer-specific duty assessment rates for each class or kind of merchandise based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total quantity of sales examined. The Department will instruct Customs to liquidate without regard to antidumping duty rates. The above rate will not affect Dillinger's cash deposit rate currently in effect, which continues to be based on the margins found to exist in the most recently completed review.

This notice is published in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 351.221.

Dated: August 14, 2001.

Bernard T. Carreau,
Acting Assistant Secretary for Import Administration.

Background

The Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*) requires that NMFS develop and implement recovery plans for the conservation and survival of threatened and endangered species under its jurisdiction unless it is determined that such plans will not promote the conservation of the species. In 1991, NMFS issued the first recovery plan for northern right whales. NMFS, in consultation with key constituent groups and organizations, has prepared an updated draft plan for right whales in the North Atlantic Ocean. The plan discusses the natural history, current status, and the known and potential human impacts to right whales. Actions needed to promote the recovery of this species to promote the recovery of this species are identified and discussed. A Final Recovery Plan will be used to direct U.S. activities, and to encourage international cooperation to promote the recovery of these endangered species.

On July 11, 2001 (66 FR 36260), NMFS published the draft Recovery Plan to be available for review and receive comments by September 10, 2001. By this notice, the comment period is hereby extended until October 25, 2001.
