

Public Telecommunications Facilities Program (PTFP). The purpose of PTFP is to assist, through matching funds, in the planning and construction of public telecommunications facilities in order to achieve the following objectives:

- Extend delivery of public telecommunications services to as many citizens in the United States as possible by the most efficient and economical means, including the use of broadcast and nonbroadcast technologies;
- Increase public telecommunications services and facilities available to, operated by, and owned by minorities and women; and
- Strengthen the capability of existing public radio and television stations to provide public telecommunications services to the public.

The application is used to collect the required information for NTIA to evaluate eligibility of applicants, including but not limited to, project and financial resources information, population that the project will service, and type of equipment requested. NTIA conducts a competitive review process. The award decisions are made by the Assistant Secretary for Communications and Information and are announced prior to the end of the fiscal year (September 30).

**FOR FURTHER INFORMATION CONTACT:** Kate Swails or Patrick Opay, (301)713-2289.

**SUPPLEMENTARY INFORMATION:** The subject modification to Permit No. 1556, issued on May 24, 2006 (71 FR 31164) is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Permit No. 1556 authorizes the permit holder to perform sea turtle surveys in the waters of the Northern Mariana Islands, USA. The project consists of shoreline/cliff line assessments, in-water tow dive assessments, and the hand capture of sea turtles. Turtles are handled, measured, photographed, carapace painted, tissue-sampled, flipper tagged, passive integrated transponder tagged, and released. A subset of the turtles are satellite tagged. The applicant captures up to 100 green and 40 hawksbill sea turtles annually. The permit is issued for five years.

The permit holder requests authorization to change their field season from April-October to year round and add shell etching and oral examination to their list of procedures.

Dated: August 27, 2009.
