

infestation risks. The amended correction timeframes that HUD is considering would apply only to Public Housing and Multifamily properties due to the statutory constraints on the HCV and PBV programs. An example of industry best practices would be utilizing integrated pest management as a form of proactive pest control. HUD seeks input on an appropriate correction timeframe and use of industry best practices to address infestations in HUD-assisted properties.

For all the above changes, HUD also seeks comments on whether these proposed requirements, as applied to all covered housing, would substantially narrow the pool of available rental housing for families participating in HUD's programs. HUD also notes that HUD is continuing to review the comments received through the **Federal Register** on the NSPIRE proposed rule in the development of the attached standards. All standards-related comments from the NSPIRE proposed rule and comments received in response to this request for comments will be considered prior to the final standards notice.

VIII. The NSPIRE Standards

As explained in the background section, previous versions of the NSPIRE standards have been published to the HUD website. Previous versions have been archived. HUD seeks comment on the current version, 2.2, which is available for review at https://www.hud.gov/sites/dfiles/PIH/documents/6092-N-02nspire_propose_standards.pdf. HUD asks that all comments to version 2.2 be made through the **Federal Register**.

Deputy Secretary.

certain waters of the Black River. This action is necessary to provide for the safety of life on these navigable waters near Black River Landing, Lorain, OH, during a dragon boat festival. II. Background, Purpose, and Legal Basis

The Cleveland Dragon Boat Festival has occurred annually for over a decade. Past years events were held on the Cuyahoga River in conjunction with the Head of the Cuyahoga regatta, for which the Captain of the Port Buffalo initiated a rulemaking in 2015 (80 FR 51943) to protect spectators, participants, and vessels from the hazards associated with the rowing event. Due to increased participation in the Dragon Boat Festival, the dragon boat event has been relocated to the Black River Landing in Lorain, OH, to preserve the safety of spectators and vessels.

On January 31, 2022, the Cleveland Dragon Boat Association notified the Coast Guard that it will be conducting a dragon boat festival from 8 a.m. through 5 p.m. on September 18, 2022. Typically, the event occurs on or around the first through third Saturday of September between the hours of 8 a.m. and 5 p.m. The dragon boat festival is

to occur south of the East Erie Avenue Bridge in front of the Black River Landing in Lorain, OH. Hazards from the event include, but are not limited to, sponsor operated vessels needing to transit the area during the festival. These vessels are expected to accompany the vessels competing in the row boat style races. The Captain of the Port Buffalo (COTP) has determined that potential hazards associated with the festival would be a safety concern for anyone within this portion of the Black River.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters within this portion of the Black River before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231).

III. Discussion of Proposed Rule

The COTP is proposing to establish a safety zone from 8 a.m. to 5 p.m. on or around the first through third Saturday of September, according to when the actual event is scheduled. In 2022, the Dragon Boat Festival will occur on September 18. The safety zone would cover all navigable waters south of the East Erie Avenue Bridge in front of the Black River Landing in Lorain, OH. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the scheduled dragon boat festival. No vessel or person would be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive Orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This NPRM has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on size, location, and duration

of the proposed rule. This Safety Zone would restrict navigation on and through this small designated portion of the Black River for nine hours on one day.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the

distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the potential effects of this proposed rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves a safety zone lasting nine hours that would prohibit entry within the area south of the East Erie Avenue Bridge in front of the Black River Landing. Normally such actions are categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket,

see the **ADDRESSES** section of this preamble. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

V. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking, and will consider all comments and material received during the comment period. SUPPLEMENTARY INFORMATION: Caller Service is a premium service available for a fee to any customer meeting certain mailing standards. Currently, Caller Service customers are not allowed to omit their Post Office Box number from the address of the mailpiece.

The Postal Service is proposing to allow approved Caller Service customers with a unique 5-digit ZIP Code to add Customized Address by paying for the right to omit the P.O. Box number and replacing it with a different approved address line. For example, a Caller Service customer with a unique ZIP Code could replace “P.O. Box 1287” with “One Postal Way.” Only the P.O. Box portion of the address would be replaced; the unique ZIP Code would remain as part of the city/state line.

A current approved Caller Service customer with a unique 5-digit ZIP Code may request Customized Address by using forms available at their approved postal facility and paying a one-time onboarding fee of \$2,000. After the first year, a fee of \$1,000 would be charged for each authorized delivery address line per annual (12-month) period. In addition to being limited to those customers with a unique 5-digit ZIP Code, Customized Address would also be restricted to use with letters and flats. Any parcels that are delivered to the address that do not bear evidence of postage payment would be delivered postage due at the appropriate Parcel Select rate.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations.
