

occurrence estimates will be used to support EPA's review of existing regulations, and the Agency's decision on whether any revisions are needed. In addition, the 1996 SDWA section 1445(g) requires the Agency to maintain a national drinking water contaminant occurrence database (*i.e.*, the National Contaminant Occurrence Data (NCOD)) using occurrence data for both regulated and unregulated contaminants in public water systems (PWSs). This data collection will provide new occurrence data on regulated contaminants to maintain the NCOD.

Following the first public notice of this proposed data collection rule on June 5, 2006 (71 FR 32340), EPA received one public comment. The commenter expressed concerns that EPA should (1) make every effort to minimize the effort it takes States to share these data; (2) not use the data in an enforcement context; and (3) not make future collections mandatory. EPA agrees with the commenter that the Agency should aim to minimize burden on the States and plans to do so by allowing submission of data in virtually any electronic format, and providing States that use the Safe Drinking Water Information System State Version (SDWIS/State) with extraction scripts if States agree with this method of data transfer. In addition, EPA plans not to use the data for occurrence assessments for enforcement actions. Finally, EPA plans to conduct this data collection as a voluntary effort. Any possible future changes regarding the collection of drinking water contaminant occurrence data will be handled through a separate public comment process. The commenter did not suggest that EPA make changes to the data collection format or to the cost and burden estimates.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 12.2 hours per State. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and

review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State drinking water primacy agencies.

Estimated Number of Respondents: 56.

Frequency of Response: One time only.

Estimated Total Annual Hour Burden: 681.

Estimated Total Annual Cost: \$30,608, which includes \$0 annualized capital or O&M costs.

Dated: October 26, 2006.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Safe Drinking Water Act State Revolving Fund Program; EPA ICR No. 1803.05, OMB Control No. 2040-0185

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before December 4, 2006.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OW-2002-0059, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by e-mail to OW-Docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency (EPA), Water Docket, Environmental Protection Agency, Mail Code 4101T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Howard Rubin, Mail Code 4606M, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-2051; e-mail address: rubin.howarde@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 5, 2006 (70 FR 32342), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2002-0059, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC).

Note: The EPA Docket Center suffered damage due to flooding during the last week of June 2006. The Docket Center is continuing to operate. However, during the cleanup, there will be temporary changes to Docket Center telephone numbers, addresses, and hours of operation for people who wish to visit the Public Reading Room to view documents. Consult EPA's **Federal Register** notice at 71 FR 54815 (September 19, 2006) or the EPA Web site at <http://www.epa.gov/epahome/dockets.htm> for current information on docket status, locations and telephone numbers.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Safe Drinking Water Act State Revolving Fund Program.

ICR numbers: EPA ICR No. 1803.05, OMB Control No. 2040-0185.

ICR Status: This ICR is scheduled to expire on November 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. The OMB control numbers for EPA's regulations in title 40 of the CFR, after

appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Safe Drinking Water Act (SDWA) Amendments of 1996 (Pub. L. 104-182) authorized the creation of the Drinking Water State Revolving Fund (DWSRF) program in each State and Puerto Rico to assist public water systems in financing the costs of infrastructure needed to achieve or maintain compliance with SDWA requirements and to protect public health. Section 1452 authorizes the Administrator of EPA to award capitalization grants to the States and Puerto Rico which, in turn, provide low-cost loans and other types of assistance to eligible drinking water systems. States can also reserve a portion of their grants to conduct various set-aside activities. The information collection activities will occur primarily at the program level through the (1) Capitalization Grant Application and Agreement/State Intended Use Plan; (2) Biennial Report; (3) Annual Audit; and (4) Assistance Application Review. Information collected is needed for input into the DWSRF National Information Management System.

(1) *Capitalization Grant Application and Agreement/State Intended Use Plan:* The State must prepare a Capitalization Grant Application that includes an Intended Use Plan (IUP), outlining in detail how it will use all the funds covered by the capitalization grant. The State may, as an alternative, develop the IUP in a two part process with one part identifying the distribution and uses of the funds among the various set-asides in the DWSRF program and the other part dealing with project assistance from the Fund.

(2) *Biennial Report:* The State must agree to complete and submit a Biennial Report on the uses of the capitalization grant. The scope of the report must cover assistance provided by the DWSRF Fund and all other set-aside activities included under the Capital Grant Agreement. States, which jointly administer DWSRF and Clean Water State Revolving Fund (CWSRF) programs, in accordance with section 1452(g)(1), may submit reports (according to the schedule specified for each program) that cover both programs.

(3) *Annual Audit:* A State must comply with the provisions of the Single Audit Act Amendments of 1996.

Best management practices suggest and EPA recommends that a State conduct an annual independent audit of its DWSRF program. The scope of the report must cover the DWSRF Fund and all other set-aside activities included in the Capitalization Grant Agreement. States which jointly administer DWSRF and CWSRF programs, in accordance with section 1452(g)(1), may submit audits that cover both programs but which report financial information for each program separately.

(4) *Assistance Application Review:* Local applicants seeking financial assistance must prepare and submit DWSRF loan applications. States then review completed loan applications and verify that proposed projects will comply with applicable Federal and State requirements.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 131 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local governments, businesses, and non-profit institutions.

Estimated Number of Respondents: 1505 respondents per year.

Frequency of Response: Annual for State Grant Applications and Audit reports, Biennial for State Annual Reports, once per loan applications for loan applicants.

Estimated Total Annual Hour Burden: 196,870 hours.

Estimated Total Annual Cost: \$6,862,452, which includes \$0 capital and O&M.

Changes in the Estimates: There is an increase of 1,935 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase reflects EPA's calculation of burden for Biennial Reports.

Dated: October 26, 2006.

Oscar Morales,

Director, Collection Strategies Division.
