

Appeals & Reimbursement. Upon OMB approval, 0920–1001 will be discontinued. The provisions in the interim final rule that contain data collection requirements are:

Section 88.5 Application process—status as a WTC responder. This section informs applicants who believe they meet the eligibility criteria for a WTC responder how to apply for enrollment in the WTC Health Program, and describes the types of documentation the WTC Program Administrator will accept as proof of eligibility. We expect that to receive approximately 4,500 applications per year. The burden table reflects the annualized total burden broken into the four separate applicant groups: We estimate that 45 Fire Department of New York (FDNY) responders (1% of applicants); 2,475 general responders (55%); 630 Pentagon/Shanksville responders (14%); and 1,350 survivors (30%) will submit applications. The burden estimates for these three different forms are: FDNY = 23 hours; general responders = 1,238 hours; Pentagon/Shanksville responders = 315 hours; survivors = 405 hours.

Section 88.11 Appeals regarding eligibility determination—responders and survivors. This section establishes

the process for appeals regarding eligibility determinations. Of the 4,500 applications we expect to receive per year, we expect that 10% will fail due to ineligibility. We further assume that 10% of those individuals, or 45 respondents, will appeal the decision. The burden estimate is 23 hours.

Section 88.15 Appeals regarding treatment. This section establishes the timeline and process to appeal the Administrator's determinations regarding treatment decisions. HHS estimates that Program participants will request certification for 20,000 health conditions each year. Of those 20,000, we expect that .01 percent (200) will be denied certification by the WTC Program Administrator. We further expect that such a denial will be appealed 30 percent of the time. Of the projected 451,472 enrollees who will receive medical care, it is estimated that .05 percent (26) will appeal decisions of unnecessary treatment. We estimate that the appeals letter will take no more than 30 minutes.

Section 88.16 Reimbursement for travel expenses. This section established the process for members of the Nationwide Provider Network (NPN) who travel more than 250 miles to a

nationwide network provider for medically necessary treatment may be provided necessary and reasonable transportation and other expenses. These individuals may submit a travel refund request form, which should take respondents 10 minutes. HHS expects no more than 10 claims per year.

The reporting and record keeping requirements contained in these regulations are used by NIOSH to carry out its responsibilities related to the implementation of the WTC Health Program as required by law. The burdens imposed have been reduced to the absolute minimum considered necessary to permit NIOSH to carry out the purpose of the legislation, *i.e.*, to implement the WTC Health Program. This emergency data collection is warranted because it is essential that individuals who wish to be enrolled, apply to the WTC Health Program, appeal a determination made by the WTC Program Administrator, or submit a claim for reimbursement have the opportunity to do so as soon as the eligibility criteria are established with the publication of this interim final rule. The total annualized burden is 2,319. There are no costs to respondents other than their time.
