

Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this final rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction, from further environmental documentation. It has been determined that this final rule does not significantly impact the environment.

Bridges.

Regulations

■ For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; Department of Homeland Security Delegation No. 0170; 33 CFR 1.05–1(g); section 117.255 also issued under the authority of Pub. L. 102–587, 106 Stat. 5039.

■ 2. Section 117.591 is amended by adding a new paragraph (e)(3) to read as follows:

§ 117.591 Charles River and its tributaries.

* * * * *

(e) * * *

(3) From midnight to 8 a.m., April, May, October, and November, the draw shall open on signal after at least an eight-hour advance notice is given.

* * * * *

■ 3. Section 117.597 is revised to read as follows:

§ 117.597 Dorchester Bay.

The draw of the of the William T. Morrissey Boulevard Bridge, mile 0.0, at Boston, shall operate as follows:

(a) From 7:30 a.m. to 9 a.m. and 4:30 p.m. to 6 p.m., Monday through Friday, except holidays, the draw need not open for the passage of vessel traffic.

(b) The draw shall open on signal from April 16 through May 31, from 8 a.m. through midnight, except as provided in paragraph (a) of this

section. From midnight through 8 a.m. at least an eight-hour advance notice is required for bridge openings.

(c) The draw shall open on signal at all times from June 1 through September 30, except as provided in paragraph (a) of this section.

(d) The draw shall open on signal from October 1 through October 14, 8 a.m. through midnight, except as provided in paragraph (a) of this section. From midnight through 8 a.m. at least an eight-hour advance notice is required for bridge openings.

(e) The draw shall open on signal from October 15 through April 15, after at least a 24 hours notice is given, except as provided in paragraph (a) of this section.

■ 4. Section 117.618 is amended by revising paragraph (b) to read as follows:

§ 117.618 Saugus River.

* * * * *

(b) The draw of the General Edwards SR1A Bridge, mile 1.7, between Revere and Lynn, shall open on signal; except that, from April 1 through November 30, from midnight through 8 a.m. at least an eight-hour advance notice is required for bridge openings, and at all times from December 1 through March 31, at least an eight-hour advance notice is required for bridge openings.

33 CFR Part 147

[CGD08–03–017]

RIN 1625–AA72

Safety Zone; Outer Continental Shelf Facility in the Gulf of Mexico in Mississippi Canyon 243

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is establishing a safety zone around a petroleum and gas production facility in Mississippi Canyon 243 of the Outer Continental Shelf in the Gulf of Mexico while the facility is being constructed and after the construction is completed. The construction site and facility need to be protected from vessels operating

outside the normal shipping channels and fairways, and placing a safety zone around the construction site and facility will significantly reduce the threat of allisions, oil spills and releases of natural gas. The regulation prohibits all vessels from entering or remaining in the specified area around the construction site and facility except for the following: an attending vessel; a vessel under 100 feet in length overall not engaged in towing; or a vessel authorized by the Eighth Coast Guard District Commander.

DATES: This final rule is effective on November 13, 2003.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket [CGD08–03–017] and are available for inspection or copying at Commander, Eighth Coast Guard District (m), Hale Boggs Federal Bldg., 501 Magazine Street, New Orleans, LA, 70130, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant (LT) Kevin Lynn, Project Manager for Eighth Coast Guard District Commander, Hale Boggs Federal Bldg., 501 Magazine Street, New Orleans, LA 70130, telephone (504) 589–6271.

SUPPLEMENTARY INFORMATION:

Regulatory History

On July 7, 2003, we published a notice of proposed rulemaking (NPRM) entitled “Safety Zone; Outer Continental Shelf Facility in the Gulf of Mexico in Mississippi Canyon 243” in the **Federal Register** (68 FR 40229). We received one comment on the proposed rule. No public hearing was requested and none was held.

Background and Purpose

The Coast Guard is establishing a safety zone around a petroleum and gas production facility in the Gulf of Mexico: Matterhorn Tension Leg Platform A (Matterhorn TLP), Mississippi Canyon 243 (MC 243), located at position 28°44′32″ N, 88°39′32″ W. The safety zone is in effect while the facility is being constructed and after the construction is completed.

This safety zone is in the deepwater area of the Gulf of Mexico. For the purposes of this regulation it is considered to be in waters of 304.8 meters (1,000 feet) or greater depth extending to the limits of the Exclusive Economic Zone (EEZ) contiguous to the territorial sea of the United States and extending to a distance up to 200 nautical miles from the baseline from

which the breadth of the sea is measured. Navigation in the area of the safety zone consists of large commercial shipping vessels, fishing vessels, cruise ships, tugs with tows and the occasional recreational vessel. The deepwater area also includes an extensive system of fairways. The fairways include the Gulf of Mexico South Pass Fairway, and the South Pass to Mississippi River-Gulf Outlet Channel Safety Fairway. Significant amounts of vessel traffic occur in or near the various fairways in the deepwater area.

TotalFinaElf E&P USA, Inc., hereafter referred to as TotalFinaElf requested that the Coast Guard establish a safety zone in the Gulf of Mexico around the Matterhorn TLP construction site and for the zone to remain in effect after construction is completed.

The request for the safety zone was made due to the high level of shipping activity around the site of the facility and the safety concerns for construction personnel, the personnel on board the facility after it is completed and the environment. TotalFinaElf indicated that the location, production level, and personnel levels on board the facility make it highly likely that any allision with the facility during and after construction would result in a catastrophic event. The Matterhorn TLP will be a high production petroleum and gas drilling facility, capable of producing approximately 30,000 barrels of oil per day and 50 million cubic feet of gas per day, and manned with a crew of approximately 60 people.

The Coast Guard reviewed TotalFinaElf's concerns and agreed that the risk of allision to the facility and the potential for loss of life and damage to the environment resulting from such an accident during and following the construction of Matterhorn TLP warrants the establishment of this safety zone. This regulation significantly reduces the threat of allisions, oil spills and natural gas releases, and increases the safety of life, property, and the environment in the Gulf of Mexico. This regulation is issued pursuant to 14 U.S.C. 85 and 43 U.S.C. 1333 as set out in the authority citation for 33 CFR part 147.

Discussion of Comments and Changes

We received one comment on the proposed rule. The comment addressed several issues, the first being that oil facilities should be built with safeguards to prevent oil pollution and the Coast Guard should insist on total safety for oil drilling at this location. This regulation significantly reduces the threat of allisions, oil spills and natural gas releases, and increases the safety of

life, property, and the environment in the Gulf of Mexico by creating a no entry zone around the facility applicable to certain vessels (see **SUMMARY**). The second issue posed by the comment recommends the Coast Guard deem certain poor weather days as being unsuitable for vessel transits. This issue is not relevant to the rule and will not be discussed. The final issue raised in the comment recommends that the Coast Guard designate "off limit" areas to include the location at which the Matterhorn TLP is to be constructed and all other places where vessels can experience trouble due to rough weather. This issue is not relevant to the rule and will not be discussed. In consideration of this comment, the Coast Guard has made no substantial changes to the provisions of this rule.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Homeland Security (DHS).

The impacts on routine navigation are expected to be minimal because the safety zone will not overlap any of the safety fairways within the Gulf of Mexico.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. Since the construction site for the Matterhorn TLP is located far offshore, few privately owned fishing vessels and recreational boats/yachts operate in the area and alternate routes are available for those vessels. Use of an alternate route may cause a vessel to incur a delay of 4 to 10 minutes in arriving at their destinations depending on how fast the vessel is traveling. Therefore, the Coast Guard expects the impact of

this regulation on small entities to be minimal.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offered to assist small entities in understanding this rule so they can better evaluate its effects on them and participate in the rulemaking.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination With Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under

figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation because this rule is not expected to result in any significant environmental impact as described in NEPA. Paragraph (34)(g) is applicable because this rule is establishing a safety zone that will be effective for a period greater than one week. A final "Environmental Analysis Check List" and a final "Categorical Exclusion Determination" (CED) are available in the docket where indicated under ADDRESSES.

List of Subjects in 33 CFR Part 147

Continental shelf, Marine safety, Navigation (water).

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 147 as follows:

PART 147—SAFETY ZONES

■ 1. The authority citation for part 147 continues to read as follows:

Authority: 14 U.S.C. 85; 43 U.S.C. 1333; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add § 147.829 to read as follows:

§ 147.829 Matterhorn Tension Leg Platform safety zone.

(a) *Description.* The Matterhorn Tension Leg Platform A (Matterhorn TLP), Mississippi Canyon 243 (MC 243), located at position 28°44'32" N, 88°39'32" W. The area within 500 meters (1640.4 feet) from each point on the structure's outer edge is a safety zone. These coordinates are based upon [NAD 83].

(b) *Regulation.* No vessel may enter or remain in this safety zone except the following:

- (1) An attending vessel;
- (2) A vessel under 100 feet in length overall not engaged in towing; or
- (3) A vessel authorized by the Commander, Eighth Coast Guard District.

Dated: September 22, 2003.

R.F. Duncan,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

[FR Doc. 03–25890 Filed 10–10–03; 8:45 am]

BILLING CODE 4910–15–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[COTP San Francisco Bay 03–023]

RIN 1625–AA00

Security Zone; Suisun Bay, Concord, CA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary security zone in the navigable waters of the United States adjacent to the Military Ocean Terminal Concord (MOTCO), California (formerly United States Naval Weapons Center Concord, California). In light of recent terrorist actions against the United States, the security zone is necessary to ensure the safe onloading and offloading of military equipment and to ensure the safety of the nearby public from potential subversive acts. The security zone will prohibit all persons and vessels from entering, transiting through or anchoring within a portion of the Suisun Bay surrounding the MOTCO unless authorized by the Captain of the Port (COTP) or his designated representative.

DATES: This rule is effective from 7 a.m. PDT on October 1, 2003 to 11:59 p.m. PST on October 31, 2003.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket [COTP San Francisco Bay 03–023] and are available for inspection or copying at Coast Guard Marine Safety Office San Francisco Bay, Coast Guard Island, Alameda, California, 94501, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Doug Ebberts, U.S. Coast Guard Marine Safety Office San Francisco Bay, at (510) 437–3073.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a NPRM. Additionally, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register** as the schedule and other logistical details were not known until a date fewer than 30 days prior to the start date of the military operation.
