

- Hawaii County, HI (DR 4366, an additional \$23,720,000). *Extraordinary circumstance:* At the time of the December 2019 allocation FEMA Public Assistance (PA) estimates were still being discussed with state officials. The PA estimate at the time of the 2019 allocation was just \$1.5 million with local match (“unmet need”) of \$378,000. The updated data from FEMA is that DR 4366 has \$96 million in Category C to G needs with a \$24 million match requirement which substantially increases unmet needs.

- Northern Marianas (DR 4396 and DR 4404, an additional \$10,378,000). *Extraordinary circumstance:* FEMA’s Permanent Housing Construction (PHC) program is seldom activated by FEMA so it requires a special consideration for HUD’s calculation of unmet needs. In HUD’s December 3rd allocation announcement we had reduced the housing needs estimate for the Northern Marianas based on a FEMA early estimate that 455 homes would be repaired or replaced by the PHC program and thus would not need CDBG–DR assistance. At the time, the program was in its early implementation and the number of homes served was expected to change. Due to the unusual nature of this FEMA program, HUD requested from FEMA in May 2020 a revised estimate of how many homes would be served. That revised FEMA PHC estimate is that 300 homes are now expected to be served by PHC instead of the previously estimated 455 homes. This reduction in the FEMA PHC leads to an increase in the Northern Marianas unmet CDBG–DR need estimate by 155 homes.

- Texas (DR 4466, an additional \$14,769,000). *Extraordinary circumstance:* This disaster was declared on October 4th and the data used for the December 3rd allocation had been extracted from FEMA’s systems on November 15, 2019. In general, HUD’s experience is that FEMA data is most complete for the purpose of calculating CDBG–DR unmet needs approximately 90 days after a disaster declaration. DR 4466 was the only disaster in 2019 that had been declared within 90 days of the November 15th data extraction. For this reason, HUD requested a refresh of the FEMA data for DR 4466 which identified 252 additional homes with serious damage than had been identified in the prior allocation leading to the increased estimate of need.

- Puerto Rico (DR 4473, \$36,424,000). *Extraordinary circumstance:* On December 28, 2019, Puerto Rico experienced a major disaster (DR 4473) that has continued for some months with continuing after-shocks. This is a disaster occurring in both 2019 and 2020. Because it initially occurred in 2019 it is eligible for funding from Public Law 116–20. However, this disaster is on-going. FEMA had closed the application period for the IHP program but due to a serious after-shock on May 2, 2020, FEMA reopened the application period for this disaster. This allocation is based on the data before FEMA reopened the application period.

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX21EE000101100]

Call for Nominations to the National Geospatial Advisory Committee

AGENCY: U.S. Geological Survey, Interior.

ACTION: Call for Nominations.

SUMMARY: The Department of the Interior (DOI) is seeking nominations to serve on the National Geospatial Advisory Committee (NGAC). The NGAC is a Federal Advisory Committee authorized through the Geospatial Data Act of 2018 (GDA), which operates in accordance with the Federal Advisory Committee Act (FACA). The Committee provides advice and recommendations to the Secretary of the Interior through the Federal Geographic Data Committee (FGDC) related to management of Federal geospatial programs, development of the National Spatial Data Infrastructure, and the implementation of the GDA. The Committee reviews and comments on geospatial policy and management issues and provides a forum for views of non-Federal stakeholders in the geospatial community.

DATES: Nominations to participate on this Committee must be received by February 22, 2021.

ADDRESSES: Send nominations electronically to ngacnominations@fgdc.gov, or by mail to John Mahoney, U.S. Geological Survey (USGS), DOI, 909 First Avenue, Suite 800, Seattle, WA 98104. Nominations may come from employers, associations, professional organizations, or other geospatial organizations. Nominations should include a resume providing an adequate description of the nominee’s qualifications, including information that would enable the DOI to make an informed decision regarding meeting the membership requirements of the Committee and permit the DOI to contact a potential member. Nominees are strongly encouraged to include supporting letters from employers, associations, professional organizations, and/or other organizations that indicate support by a meaningful constituency for the nominee.

FOR FURTHER INFORMATION CONTACT: John Mahoney, USGS, (206–220–4621). Additional information about the NGAC and the nomination process is posted on the NGAC web page at www.fgdc.gov/ngac.

SUPPLEMENTARY INFORMATION: The Committee conducts its operations in

accordance with the provisions of the GDA and the FACA. It reports to the Secretary of the Interior through the FGDC and functions solely as an advisory body. The Committee provides recommendations and advice to the DOI and the FGDC on policy and management issues related to the effective operation of Federal geospatial programs.

The NGAC includes up to 30 members, selected to generally achieve a balanced representation of the viewpoints of the various stakeholders involved in national geospatial activities. NGAC members are appointed for staggered terms, and nominations received through this call for nominations may be used to fill vacancies on the Committee that will become available in 2021 and 2022. Nominations will be reviewed by the FGDC and additional information may be requested from nominees. Final selection and appointment of Committee members will be made by the Secretary of the Interior.

The Committee meets approximately 3–4 times per year. Committee members will serve without compensation, but travel and per diem costs will be provided by USGS. The USGS will also provide necessary support services to the Committee.

Committee meetings are open to the public. Notice of committee meetings are published in the **Federal Register** at least 15 days before the date of the meeting. The public will have an opportunity to provide input at these meetings.

Authority: 5 U.S.C. Appendix 2.

Kenneth Shaffer,

Deputy Executive Director, Federal Geographic Data Committee.
