

that awarded cost reimbursable contracts in FY 2012. Of these agencies, it is estimated that approximately fifty percent, or 60, contracting agencies may utilize IFMS to provide vehicles to contractors for official purposes only. It is further estimated that each of the 60 agencies would average approximately 3 contractor requests per year to utilize the IFMS, for a total estimate of approximately 180 contractor requests per year. The requests should be limited because certain travel costs are allowable under cost-reimbursement contracts, including the costs of contractor-owned or -leased automobiles. FAR 31.205-46(d) provides that these costs are allowable, if reasonable, to the extent that the automobiles are used for company business. Consequently, the FY 2012 FPDS data will serve as the basis for the number of respondents per year. One burden hour was estimated per response to read and prepare information. This represents an increase from what was published in the **Federal Register** on March 5, 2010 (75 FR 10267). No public comments were received in prior years that have challenged the validity of the Government's estimate.

Estimated respondents/yr: 180.

Number of responses annually: 1.0.

Total annual responses: 180.

Estimated hrs/response: 1.0.

Estimated total burden/hrs: 180.
