

this administrative review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior completed segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published in the completed segment for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less than fair value (LTFV) investigation, but the producer has been covered in a prior completed segment of this proceeding, then the cash deposit rate will be the rate established in the completed segment for the most recent period for the producer of the merchandise; and (4) the cash deposit rate for all other producers and exporters will continue to be 2.16 percent, the all-others rate established in the LTFV investigation, as amended.<sup>6</sup> These cash deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

#### Notification to Interested Parties

We are issuing and publishing these final results of administrative review in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.221(b)(5).

Dated: June 6, 2025.

**BILLING CODE 3510-DS-P**

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[RTID 0648- XE823]

#### Marine Mammals; File No. 27539

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of permit.

**SUMMARY:** Notice is hereby given that an enhancement permit has been issued to Waikiki Aquarium, 2777 Kalakaua Avenue, Honolulu, HI 96815 (Responsible Party: Andrew Rossiter, Ph.D.) for captive Hawaiian monk seals (*Neomonachus schauinslandi*).

**ADDRESSES:** The permit and related documents are available for review upon written request via email to [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov).

**FOR FURTHER INFORMATION CONTACT:** Jennifer Skidmore or Courtney Smith, Ph.D., (301) 427-8401.

**SUPPLEMENTARY INFORMATION:** On December 19, 2024, notice was published in the **Federal Register** (89 FR 103786) that a request for an enhancement permit had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222 through 226).

The objectives of the enhancement is to support the recovery actions in accordance with The Hawaiian Monk Seal Recovery Plan (NMFS 2007) and the Species in the Spotlight Action Plan for Hawaiian monk seals (NMFS 2021) by providing long-term care of up to two Hawaiian monk seals at any given time taken from the wild for rehabilitation or enhancement purposes under separate permits or authorizations. Seals maintained under this permit would be removed from the wild as either: aggressive males that severely injure or

kill conspecifics or beached/stranded seals taken for rehabilitation, but are deemed non-releasable due to medical issues or are considered nuisance animals. These animals will continue to be maintained under the authorities under which they were collected from the wild pursuant to MMPA Sections 104(c)(4) for aggressive males or 109(h)/112(c) for non-releasables, as well as ESA Section 10(a)(1)(A).

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: June 9, 2025.

#### Atlantic Highly Migratory Species; Schedules for Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public workshops.

**SUMMARY:** Free Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops will be held in July, August, and September of 2025. Certain fishermen and shark dealers are required to attend a workshop to meet regulatory requirements and to maintain valid permits. Specifically, the Atlantic Shark Identification Workshop is mandatory for all federally permitted Atlantic shark dealers. The Safe Handling, Release, and Identification Workshop is mandatory for vessel owners and operators who use bottom

<sup>6</sup> See *Certain Steel Nails from Taiwan: Notice of Court Decision Not in Harmony With Final Determination in Less Than Fair Value Investigation and Notice of Amended Final Determination*, 82 FR 55090 (November 20, 2017).

longline, pelagic longline, or gillnet gear, and who have also been issued shark or swordfish limited access permits. Additional free workshops will be conducted in 2025 and will be announced in a future notice. In addition, NMFS has implemented online recertification workshops for persons who have already taken an in-person training.

**DATES:** The Atlantic Shark Identification Workshops will be held on July 10, 2025 and August 21, 2025. The Safe Handling, Release, and Identification Workshops will be held on July 2, 2025, August 7, 2025, and September 4, 2025.

**ADDRESSES:** The Atlantic Shark Identification Workshops will be held in Virginia Beach, VA and Mount Pleasant, SC. The Safe Handling, Release, and Identification Workshops will be held in Ocean City, MD, Vero, FL, and Kenner, LA.

**FOR FURTHER INFORMATION CONTACT:**

Anna Quintrell by email at [anna.quintrell@noaa.gov](mailto:anna.quintrell@noaa.gov) or by phone at 301-427-8503.

**SUPPLEMENTARY INFORMATION:** Atlantic highly migratory species (HMS) fisheries (tunas, swordfish, sharks, and billfish) are managed under the 2006 Consolidated HMS Fishery Management Plan (FMP) and its amendments pursuant to the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) and consistent with the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*). HMS implementing regulations are at 50 CFR part 635. Section 635.8 describes the requirements for the Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops. The workshop schedules, registration information, and a list of frequently asked questions regarding the Atlantic Shark Identification and Safe Handling, Release, and Identification workshops are available online at: <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/atlantic-shark-identification-workshops> and <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/safe-handling-release-and-identification-workshops>.

**Atlantic Shark Identification Workshops**

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic

sharks (71 FR 58057, October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Thus, certificates that were initially issued in 2022 will expire in 2025.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification Workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit that first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer reports. Atlantic shark dealers are prohibited from renewing a Federal shark dealer permit unless a valid Atlantic Shark Identification Workshop certificate for each business location that first receives Atlantic sharks has been submitted with the permit renewal application. Additionally, a copy of a valid dealer or proxy Atlantic Shark Identification Workshop certificate must be in any trucks or other conveyances that are extensions of a dealer's place of business.

**Workshop Dates, Times, and Locations**

1. July 10, 2025, 12 p.m.–4 p.m., Courtyard by Marriott, 5700 Greenwich Road, Virginia Beach, VA 23462.
2. August 21, 2025, 12 p.m.–4 p.m., Holiday Inn Express, 1104 Stockdale Lane, Mount Pleasant, SC 29466.

**Registration**

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander at [ericssharkguide@yahoo.com](mailto:ericssharkguide@yahoo.com) or at 386-852-8588. Pre-registration is highly recommended, but not required.

**Registration Materials**

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items to the workshop:

1. Atlantic shark dealer permit holders must bring proof that the attendee is an owner or agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.
2. Atlantic shark dealer proxies must bring documentation from the permitted dealer acknowledging that the proxy is attending the workshop on behalf of the

permitted Atlantic shark dealer for a specific business location, a copy of the appropriate valid permit, and proof of identification.

**Workshop Objectives**

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

**Safe Handling, Release, and Identification Workshops**

Since January 1, 2007, shark limited access and swordfish limited access permit holders who fish with longline or gillnet gear have been required to submit a copy of their Safe Handling, Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057, October 2, 2006). These certificate(s) are valid for 3 years. Certificates issued in 2022 will expire in 2025. As such, vessel owners who have not already attended a workshop and received a NMFS certificate, or vessel owners whose certificate(s) will expire prior to the next permit renewal, must attend a workshop to fish with, or renew, their swordfish and shark limited access permits. Additionally, new shark and swordfish limited access permit applicants who intend to fish with longline or gillnet gear must attend a Safe Handling, Release, and Identification Workshop and submit a copy of their workshop certificate before either of the permits will be issued.

In addition to vessel owners, at least one operator on board vessels issued a limited access swordfish or shark permit that uses longline or gillnet gear is required to attend a Safe Handling, Release, and Identification Workshop and receive a certificate. Vessels that have been issued a limited access swordfish or shark permit and that use longline or gillnet gear may not fish unless both the vessel owner and operator have valid workshop certificates on board at all times. Vessel operators who have not already attended a workshop and received a NMFS certificate, or vessel operators whose certificate(s) will expire prior to their next fishing trip, must attend a workshop to operate a vessel with swordfish and shark limited access

permits on which longline or gillnet gear is used.

#### *Workshop Dates, Times, and Locations*

1. July 2, 2025, 9 a.m.–2 p.m., Residence Inn Ocean City, 300 Seabay Lane, Ocean City, MD 21842.
2. August 7, 2025, 9 a.m.–2 p.m., Ocean Breeze Vero, 3384 Ocean Drive, Vero, FL 32963.
3. September 4, 2025, 9 a.m.–2 p.m., Hilton New Orleans Airport, 901 Airline Drive, Kenner, LA 70062.

#### *Registration*

To register for a scheduled Safe Handling, Release, and Identification Workshop, please contact Angler Conservation Education at 386–682–0158. Pre-registration is highly recommended, but not required.

#### *Registration Materials*

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

1. Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification;
2. Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification; and
3. Vessel operators must bring proof of identification.

#### *Workshop Objectives*

The Safe Handling, Release, and Identification Workshops are designed to teach the owner and operator of a vessel that fishes with longline or gillnet gear the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, smalltooth sawfish, Atlantic sturgeon, and prohibited sharks. In an effort to improve reporting, the proper identification of protected species and prohibited sharks will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the

mortality of protected species and prohibited sharks, which may prevent additional regulations on these fisheries in the future.

#### *Online Recertification Workshops*

NMFS implemented an online option for shark dealers and owners and operators of vessels that fish with longline and gillnet gear to renew their certificates in December 2021. To be eligible for online recertification workshops, dealers and vessel owners and operators need to have previously attended an in-person workshop. Information about the courses is available online at <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/atlantic-shark-identification-workshops> and <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/safe-handling-release-and-identification-workshops>. To access the course please visit: <https://hmsworkshop.fisheries.noaa.gov/start>.

#### **Deepwater Horizon Natural Resource Damage Assessment Open Ocean Trustee Implementation Group Final Restoration Plan 4 and Environmental Assessment: Fish and Water Column Invertebrates and Sea Turtles and Finding of No Significant Impact**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces that the Deepwater Horizon (DWH) natural resource Trustees for the Open Ocean Trustee Implementation Group (Open Ocean TIG) have prepared and are making available to the public the Final Restoration Plan 4 and Environmental Assessment: Fish and Water Column Invertebrates (FWCI) and Sea Turtles (RP4/EA) and Finding of No Significant

Impact (FONSI). The Final RP4/EA considers alternatives to help restore FWCI and sea turtles injured by the DWH oil spill. The Final RP4/EA evaluates a reasonable range of project alternatives under the Oil Pollution Act (OPA) and the OPA Natural Resource Damage Assessment regulations, and the National Environmental Policy Act (NEPA), and selects ten projects for funding and implementation. A no action alternative is also evaluated pursuant to NEPA.

**ADDRESSES:** *Obtaining Documents:* You may view and download the Final RP4/EA and FONSI at <https://www.gulfspillrestoration.noaa.gov/restoration-areas/open-ocean>. You may also request a flash drive containing the Final RP4/EA, FONSI, and a Fact Sheet (see **FOR FURTHER INFORMATION CONTACT**).

**FOR FURTHER INFORMATION CONTACT:** National Oceanic and Atmospheric Administration—Laurie Rounds, NOAA Restoration Center, (850) 378–1263, [openocean.TIG@noaa.gov](mailto:openocean.TIG@noaa.gov).

#### **SUPPLEMENTARY INFORMATION:**

##### **Introduction**

On April 20, 2010, the mobile offshore drilling unit Deepwater Horizon, which was drilling a well for BP Exploration and Production, Inc. (BP), experienced a significant explosion, fire and subsequent sinking in the Gulf of America (formerly, the Gulf of Mexico), resulting in the release of millions of barrels of oil and other discharges into the Gulf. Under the authority of the OPA, designated Federal and state Trustees, acting on behalf of the public, assessed the injuries to natural resources and prepared the Deepwater Horizon Oil Spill Final Programmatic Damage Assessment and Restoration Plan and Final Programmatic Environmental Impact Statement (Final PDARP/PEIS), and the Record of Decision for the Deepwater Horizon Oil Spill Final Programmatic Damage Assessment and Restoration Plan and Final Programmatic Environmental Impact Statement (ROD), which sets forth the governance structure and process for DWH restoration planning under the OPA Natural Resource Damage Assessments (NRDA) regulations. On April 4, 2016, the United States District Court for the Eastern District of Louisiana entered a Consent Decree resolving civil claims by the Trustees against BP.
