Proposed Rules

Federal Register

Vol. 65, No. 98

Friday, May 19, 2000

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

Public Workshop on Performance-Based Approach—Voluntary Option

AGENCY: Nuclear Regulatory

Commission.

ACTION: Notice of workshop.

SUMMARY: The Nuclear Regulatory Commission (NRC) will host a public workshop to solicit feedback on the implementation of the direct final rule for 10 CFR 50.54(a) and to gather information to determine the need for the development of the voluntary alternative rulemaking based on Nuclear Energy Institute petition PRM-50-62. On February 23, 1999, the NRC published a direct final rule in the Federal Register (64 FR 9029), that amended its regulations to permit power reactor licensees to implement certain quality assurance (QA) program changes without obtaining prior NRC approval of these changes. The direct final rule became effective on April 26, 1999. Based on the workshop outcome, the staff will determine whether additional rulemaking is warranted. The NRC invites comments from interested parties who are unable to attend the workshop.

DATES: The workshop will be held on Wednesday, June 7, 2000, from 9 a.m. to 12 p.m.

ADDRESSES: U.S. Nuclear Regulatory Commission, One White Flint North (Room 14 B6), 11555 Rockville Pike, Rockville, MD 20852–2738, (301) 415–7000.

FOR FURTHER INFORMATION CONTACT:

Robert Pettis, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone: (301) 415–3214, email rlp4@nrc.gov.

SUPPLEMENTARY INFORMATION: The discussion topics are tentative and subject to change. Anyone interested in providing a presentation on these or

other related topics, please contact Robert Pettis at (301) 415–3214.

Dated at Rockville, Maryland this 12th day of May, 2000.

For the Nuclear Regulatory Commission. **Theodore R. Quay**,

Chief, IQMB, Division of Inspection Program Management, Office of Nuclear Reactor Regulation.

[Docket No. 99-NM-163-AD]

RIN 2120-AA64

Airworthiness Directives; Boeing Model 777 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the supersedure of an existing airworthiness directive (AD), applicable to all Boeing Model 777 series airplanes, that currently requires repetitive testing of the engine fire shutoff switch (EFSS) to determine if the override mechanism and the switch handle are operational, and replacement of the EFSS, if necessary. That AD also requires, for certain airplanes, installation of a collar on a specific circuit breaker of the standby power management panel, and installation of placards to advise the flightcrew that the override mechanism must be pushed in order to pull the fire switch. That AD was prompted by a report indicating that a solenoid and an override mechanism of the EFSS were not operational due to overheating of the solenoid. The actions specified by the proposed AD are intended to prevent damage to the EFSS solenoid and to the override mechanism, and consequent failure of the EFSS due to overheating of the solenoid; such failure could result in the inability of the flightcrew to discharge the fire extinguishing agent in the event of an engine fire. This action would add various actions that would terminate the repetitive testing requirements.

DATES: Comments must be received by July 3, 2000.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-114, Attention: Rules Docket No. 99-NM-163-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Larry Reising, Aerospace Engineer, Propulsion Branch, ANM–140S, FAA, Transport Airplane Directorate, Seattle Aircraft Certification Office, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (425) 227–2683; fax (425) 227–1181.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped
