

B. Paperwork Reduction Act (PRA)

This action does not impose any new information collection burden under the PRA, 44 U.S.C. 3501 *et seq.*, because it does not create any new reporting or recordkeeping obligations. OMB has previously approved the information collection activities contained in the existing regulations and has assigned OMB control number 2070-0185 (EPA ICR No. 2446.02).

C. Regulatory Flexibility Act (RFA)

The Agency certifies that this action will not have a significant economic impact on a substantial number of small entities under the RFA, 5 U.S.C. 601 *et seq.* In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This direct final rule will allow regulated entities to voluntarily label compliant products prior December 12, 2017. The direct final rule will ease the transition of panel producers, fabricators, importers, distributors, and retailers from CARB labeling to TSCA labeling, since under the December 12, 2016 final rule, it would be difficult for some of them to time their production and inventory so that products that are labeled as TSCA compliant are available starting on but not before the compliance date. Since early labeling is voluntary, any firms that do not find this activity to be beneficial can wait until December 12, 2017 to begin offering labeled products for sale. EPA therefore concludes that this action will have a nominally positive economic effect on the small entities subject to the rule.

D. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action imposes no enforceable duty on any state, local or tribal governments or the private sector.

E. Executive Order 13132: Federalism

This action does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of

power and responsibilities among the various levels of government.

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175 (65 FR 67249, November 9, 2000). This final rule will not impose substantial direct compliance costs on Indian tribal governments. Thus, Executive Order 13175 does not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

This action is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it is not economically significant as defined in Executive Order 12866, and because EPA does not believe the environmental health or safety risks addressed by this action present a disproportionate risk to children. As addressed in Unit II.A., this action would not materially alter the requirements for labeling composite wood products and finished goods containing composite wood products as TSCA Title VI compliant. Rather, the final rule will allow TSCA Title VI compliant products to be labeled as such earlier sooner than currently permitted.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not a “significant energy action” as defined in Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not likely to have a significant adverse effect on the supply, distribution or use of energy.

I. National Technology Transfer and Advancement Act (NTTAA)

This rulemaking does not involve technical standards that would require the consideration of voluntary consensus standards pursuant to NTTAA section 12(d), 15 U.S.C. 272 note.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

EPA has determined that the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations, as specified in Executive Order 12898 (59 FR 7629, February 16,

1994). As addressed in Unit II.A., this action would not materially alter the requirements for labeling composite wood products and finished goods containing composite wood products as TSCA Title VI compliant. Rather, the final rule will allow TSCA Title VI compliant products to be labeled as such earlier sooner than currently permitted.

K. Congressional Review Act (CRA)

This action is subject to the CRA and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 770

Environmental protection, Formaldehyde, Incorporation by reference, Reporting and recordkeeping requirements, Third-party certification, Toxic substances, Wood.

Dated: June 21, 2017.

Wendy Cleland-Hamnett,

Acting Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

For the reasons set out in the preamble, title 40, chapter I, of the Code of Federal Regulations is amended as follows:

PART 770—FORMALDEHYDE STANDARDS FOR COMPOSITE WOOD PRODUCTS

■ 1. The authority citation for part 770 continues to read as follows:

Authority: 15 U.S.C. 2697(d).

§ 770.45 [Amended]

■ 2. In § 770.45, remove paragraph (f).

RIN 0648–XF525

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2017 Commercial Accountability Measures and Closure for Blueline Tilefish in the South Atlantic Region

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements accountability measures (AMs) for commercial blueline tilefish in the exclusive economic zone (EEZ) of the South Atlantic. Commercial landings for blueline tilefish are projected to reach the commercial annual catch limit (ACL) by July 18, 2017. Therefore, NMFS is closing the commercial sector for blueline tilefish in the South Atlantic EEZ at 12:01 a.m., local time, July 18, 2017, and it will remain closed until the start of the next fishing year on January 1, 2018. This closure is necessary to protect the blueline tilefish resource.

DATES: This rule is effective at 12:01 a.m., local time, July 18, 2017, until 12:01 a.m., local time, January 1, 2018.

FOR FURTHER INFORMATION CONTACT: Nikhil Mehta, NMFS Southeast Regional Office, telephone: 727-824-5305, email: nikhil.mehta@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes blueline tilefish and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The South Atlantic Fishery Management Council and NMFS prepared the FMP, and the FMP is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

As specified at 50 CFR 622.193(z)(1)(i), the blueline tilefish commercial ACL is 87,521 lb (39,699 kg), round weight.

The blueline tilefish commercial AM requires NMFS to close the commercial sector for blueline tilefish when the commercial ACL is reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register, as specified in 50 CFR 622.193(z)(1)(i). NMFS has projected that the commercial ACL for South Atlantic blueline tilefish will be reached by July 18, 2017. Accordingly, the commercial sector for South Atlantic blueline tilefish is closed effective at 12:01 a.m., local time, July 18, 2017, until 12:01 a.m., local time, January 1, 2018.

The operator of a vessel with a valid Federal commercial vessel permit for South Atlantic snapper-grouper having blueline tilefish on board must have landed and bartered, traded, or sold such blueline tilefish prior to July 18, 2017. During the commercial closure, all sale or purchase of blueline tilefish is prohibited. The harvest or possession of

blueline tilefish in or from the South Atlantic EEZ is limited to the bag and possession limits specified in 50 CFR 622.187(b)(2) and 622.187(c)(1), respectively, while the recreational sector for blueline tilefish is open. These bag and possession limits apply in the South Atlantic on board a vessel with a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper, and apply to the harvest of blueline tilefish in both state and Federal waters.

Classification

The Regional Administrator for the NMFS Southeast Region has determined this temporary rule is necessary for the conservation and management of blueline tilefish and the South Atlantic snapper-grouper fishery and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.193(z)(1)(i) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA) finds that the need to immediately implement this action to close the commercial sector for blueline tilefish constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such prior notice and opportunity for public comment are unnecessary and contrary to the public interest. Such procedures are unnecessary because the regulations at 50 CFR 622.193(z)(1)(i) have already been subject to notice and comment, and all that remains is to notify the public of the closure. Prior notice and opportunity for public comment are contrary to the public interest because there is a need to immediately implement this action to protect blueline tilefish, since the capacity of the fishing fleet allows for rapid harvest of the commercial ACL. Prior notice and opportunity for public comment would require time and would potentially result in a harvest well in excess of the established commercial ACL.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 5, 2017.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pollock in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation; closure.

SUMMARY: NMFS is reallocating the projected unused amounts of the Aleut Corporation pollock directed fishing allowance from the Aleutian Islands subarea to the Bering Sea subarea. Also, NMFS is prohibiting directed fishing for pollock in the Aleutian Islands subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to provide opportunity for harvest of the 2017 total allowable catch of pollock, consistent with the goals and objectives of the Fishery Management Plan for Groundfish (FMP) of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 11, 2017, through 2400 hrs, A.l.t., December 31, 2017.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the FMP prepared by the North Pacific Fishery Management Council (Council) under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In the Aleutian Islands subarea, the portion of the 2017 pollock total allowable catch (TAC) allocated to the Aleut Corporation directed fishing allowance (DFA) is 5,700 metric tons (mt) as established by the final 2017 and 2018 harvest specifications for groundfish in the BSAI (82 FR 11826,
