SUPPLEMENTARY INFORMATION:

Background

For the past eight years and since the first meeting of the Standing Committee on Copyright and Related Rights in November 1998, WIPO has been addressing the topic of updating the protection of the rights of broadcasting organizations. Although broadcasters rights are protected under some existing international agreements, such as under the 1961 Convention for the Protection of Performers, Producers of Phonograms and Broadcasting Organizations and the World Trade Organization's Agreement on Trade-Related Aspects of Intellectual Property Rights, there has been increasing concern that changes in technology and the opening up of much of the world to commercial broadcasting, have made the protection provided in those agreements ineffective to protect broadcast signals against piracy.

At the September 2005 WIPO General Assembly, the decision was taken to hold additional meetings of the SCCR to permit further discussion of the possible treaty and to invite the 2006 WIPO General Assembly to convene a Diplomatic Conference in December 2006 or at an appropriate time in 2007.

WIPO posts various documents from their meetings, such as reports, member state submissions, meeting agendas, and [official] texts prepared by the Chair of the SCCR. The most recent text available from July 31, 2006—"Revised Draft Basic Proposal for The WIPO Treaty on the Protection of Broadcasting Organizations" can be found at http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=64712. On August 1, 2006, the United States made a submission to WIPO addressing the issue of "netcasting" which is available at <http://www.uspto.gov/web/offices/dcom/olia/> and will shortly be available on the WIPO Web site.

Throughout this process in WIPO, many points of view have been

represented, including those of developed and developing countries, and many non-governmental organizations (NGOs), and numerous industry, creator and content owner groups. The USPTO and USCO have participated in several informal meetings with interested parties such as broadcasters, netcasters, telecom companies, Internet service providers, content industries, creators and other NGOs, in order to obtain views and information relevant to the deliberations in the SCCR on this proposed treaty.

In order to allow further opportunity for interested parties to comment, USPTO and USCO are convening this roundtable to provide another forum for such parties to provide their views of and additional information related to the proposed treaty. In particular, the participants should be prepared to identify and discuss more fully the issues and problems associated with the recent text available from July 31, 2006, the "Revised Draft Basic Proposal for The WIPO Treaty on the Protection of Broadcasting Organizations."

AGENCY: Department of Defense, Defense Threat Reduction Agency.

ACTION: Notice of advisory board meeting.

SUMMARY: The Defense Threat Reduction Agency (DTRA) and the Department of Veterans Affairs (VA) will hold the fourth public meeting of the Veterans' Advisory Board on Dose Reconstruction (VBDR). The VBDR was established at the recommendation of the National Research Council report, entitled "Review of the Dose Reconstruction Program of the Defense Threat Reduction Agency." The report recommended the need to establish an

advisory board that will provide suggestions for improvements in dose reconstruction and claim adjudication procedures. The goal of VBDR is to provide guidance and oversight of the dose reconstruction and claims compensation programs for veterans of U.S.-sponsored atmospheric nuclear weapons tests from 1945-1962; veterans of the 1945-1946 occupation of Hiroshima and Nagasaki, Japan; and veterans who were prisoners of war in those regions at the conclusion of World War II. In addition, the advisory board will assist VA and DTRA in communicating with the veterans.

Radiation dose reconstruction has been carried out by the Department of Defense under the Nuclear Test Personnel Review (NTPR) program since the 1970s. DTRA is the executive agent for the NTPR program which provides participation data and actual or estimated radiation dose information to veterans and the VA.

Board members were selected to the fulfill the statutory requirements mandated by Congress in Section 601 of Public Law 108-183. The Board was appointed on June 3, 2005, and is comprised of 16 members. Board members were selected to provide expertise in historical dose reconstruction, radiation health matters, risk communications, radiation epidemiology, medicine, quality management, decision analysis and ethics in order to appropriately enable the VBDR to represent and address veterans' concerns.

The Board is governed by the provisions of the Federal Advisory Committee Act (FACA), Public Law 92-463, which sets forth standards for the formation and conduct of government advisory committees.

DATES: Wednesday, November 8, 2006, from 8 a.m.-12 p.m., 1:30-2:30 p.m., and 4-5 p.m. with a public comment session from 2:30-3:30 p.m., and Thursday, November 9, 2006, from 8:30 a.m.-12:30 p.m. and 3:30-3:35 p.m., with a public comment session from 2-3 p.m.

Onsite Participant Claims" by Mrs. Dianne Spellberg; "How Fears Affect Our Standing of Radiation and Risks" by Mr. Raymond Johnson; "An Update on NTPR Dose Reconstruction Program" by Dr. Paul Blake; and "An Update on VA Radiation Claims Compensation Program for Veterans" by Mr. Thomas Pamperin.

On Thursday, the four subcommittees established during the inaugural VBDR session will report on their activities since June 2006. The subcommittees are the "Subcommittee on DTRA Dose Reconstruction Procedures," the "Subcommittee on VA Claims Adjudication Procedures," the "Subcommittee on Quality Management and VA Process Integration with DTRA Nuclear Test Personnel Review Program," and the "Subcommittee on Communication and Outreach."
