SUPPLEMENTARY INFORMATION:

Background

On December 26, 2012, the Department published its affirmative final determination of sales at less than fair value in the antidumping duty investigation of steel wire garment hangers from Vietnam.¹ On January 28, 2013, pursuant to section 735(d) of the Tariff Act of 1930, as amended ("the Act"), the ITC notified the Department of its final determination that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of less-than-fair-value imports of steel wire garment hangers from Vietnam.² In addition, the ITC notified the Department of its final determination that critical circumstances do not exist with respect to imports of steel wire garment hangers from Vietnam that are subject to the Department's final affirmative critical circumstances finding. Pursuant to section 736(a) of the Act, the Department is publishing an antidumping duty order on the subject merchandise.

Scope of the Order

The merchandise subject to this order is steel wire garment hangers, fabricated from carbon steel wire, whether or not galvanized or painted, whether or not coated with latex or epoxy or similar gripping materials, and whether or not fashioned with paper covers or capes (with or without printing) or nonslip features such as saddles or tubes. These products may also be referred to by a commercial designation, such as shirt, suit, strut, caped, or latex (industrial) hangers.
