SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The Gulf of Mexico Fishery Management Council (Council) has adopted a five-year strategic communications plan that requires the Communications staff to not only implement specific outreach and education strategies and tactics to Gulf of Mexico commercial fishermen, recreational anglers, non-governmental organizations, and others interested in fisheries issues, but to also provide a means to evaluate the effectiveness and measure the success of specific tactics. In order to incorporate these performance metrics into the communications plan, a baseline survey

is necessary to identify current attitudes, awareness, and communication gaps. This information will help us establish a point from which we can evaluate and measure program effectiveness and success.

The information collected by the survey will be used to achieve a baseline measurement of the effectiveness of current Council communications. The survey will be conducted by council staff through a Web-based survey. A survey link will be emailed to stakeholders, posted on the Council Web site, and published in the Council blog. The link will also be made available through our smart phone regulations Apps and Facebook page. A follow-up survey will be conducted within 2-3 years of the initial survey.

II. Method of Collection

This will be a self-selected, online survey.
