Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered. Reasons: Each foreign instrument is an electron microscope and is intended for research or scientific educational uses requiring an electron microscope. We know of no electron microscope, or any other instrument suited to these purposes, which was being manufactured in the United States at the time of order of each instrument.

*Docket Number: 09-059.* Applicant: Fermi Research Alliance LLC-Fermi National Accelerator Laboratory, Batavia, IL 60510. Instrument: Wavelength Shifting Fiber. Manufacturer: Kuraray Co., Ltd., Japan. Intended Use: See notice at 74 FR 58002, November 10, 2009.

Reasons: The wavelength shifting fibers must be .7mm in diameter and 32 meters in length. Further, the light generated in the fiber must not suffer unacceptable attenuation in traveling down 16-20 m of the WLS fiber. As such, a pertinent characteristic of this instrument is that it have an attenuation length of >20m. We know of no instrument suited to these purposes, which was being manufactured in the United States at the time of order of this instrument.

*Docket Number: 09-063.* Applicant: Argonne National Laboratory, Lemont, IL 60439. Instrument: CEOS Spherical Aberration Corrector. Manufacturer: CEOS Corrected Electron Optical Systems, GmbH, Germany. Intended Use: See notice at 74 FR 58002, November 10, 2009. Reasons: A pertinent characteristic of this instrument is that it must be capable of compensating completing the spherical aberration of the low field objective lens on the 2100F TEM to which it will be attached. The spherical aberration coefficient of this lens is 200 mm. In addition, the CEOS aberration corrector can compensate this value of spherical aberration while only increasing the chromatic aberration by approximately 20%. We know of no instrument suited to these purposes, which was being manufactured in the United States at the time of order of this instrument.
