¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimated burden for the information collection reflects an overall decrease of 10,435 hours and an increase of 831,545 records since last OMB approval. We attribute this adjustment due to an increase in the number of non-registered, non-licensed commercial medicated feed mills and decrease in non-licensed medicated feed mill recordkeeping the last few years.
