NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory
Commission (NRC).

ACTION: Notice of the OMB review of
information collection and solicitation
of public comment.

SUMMARY: The NRC has recently
submitted to OMB for review the
following proposal for the collection of
information under the provisions of the
Paperwork Reduction Act of 1995 (44
U.S.C. Chapter 35). The NRC hereby
informs potential respondents that an
agency may not conduct or sponsor, and
that a person is not required to respond
to, a collection of information unless it
displays a currently valid OMB control
number.

1. Type of submission, new, revision,
or extension: Revision.

2. The title of the information
collection: 10 CFR part 39—Licenses
and Radiation Safety Requirements for
Well Logging.

3. The form number if applicable:
N/A.

4. How often the collection is
required: Applications for new licenses
and amendments may be submitted at
any time. Applications for renewal are
submitted every 10 years. Reports are
submitted as events occur.

5. Who will be required or asked to
report: Applicants for and holders of
specific licenses authorizing the use of
licensed radioactive material for
radiography.

6. An estimate of the number of
annual responses: 1,899 (NRC
licensees—376 plus 37 recordkeepers
and Agreement State licensees—1,353
plus 133 recordkeepers).

7. The estimated number of annual
respondents: 170 (37 NRC Licensees and
133 Agreement State Licensees).

8. An estimate of the total number of
hours needed annually to complete the
requirement or request: 36,890 hours.
The NRC licensees total burden is 8,037
hours (116 reporting hrs plus 7,921
recordkeeping hrs). The Agreement
State licensees total burden is 28,853
hours (423 reporting hrs plus 28,430

recordkeeping hrs). The average burden
per response for both NRC licensees and
Agreement State licensees is 3.2 hours,
and the burden per recordkeeper is 214
hours.

9. An indication of whether section
3507(d), Public Law 104-13 applies:
N/A.

10. Abstract: 10 CFR part 39
establishes radiation safety
requirements for the use of radioactive
material in well logging operations. The
information in the applications, reports
and records is used by the NRC staff to
ensure that the health and safety of the
public is protected and that licensee
possession and use of source and
byproduct material is in compliance
with license and regulatory
requirements.

A copy of the final supporting
statement may be viewed free of charge
at the NRC Public Document Room, One
White Flint North, 11555 Rockville
Pike, Room O-1 F21, Rockville, MD

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-424 and 50-425]

Southern Nuclear Operating Company Vogtle Electric Generating Plant, Units 1 and 2

Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Southern Nuclear Operating Company
(SNC) has submitted an application for
renewal of Facility Operating Licenses
Nos. NPF-68 and NPF-81 for an
additional 20 years of operation at the
Vogtle Electric Generating Plant (VEGP),
Units 1 and 2. VEGP is located outside
of Waynesboro, Georgia.

The current operating licenses for the
VEGP, Units 1 and 2, expire on January
16, 2027, and February 9, 2029,
respectively. The application for
renewal, dated June 27, 2007 was
submitted pursuant to Title 10 of the
Code of Federal Regulations (10 CFR)
Part 54. A notice of receipt and
availability of the application, which
included SNC's environmental report
(ER), was published in the **Federal
Register** on August 3, 2007 (72 FR
43296). A notice of acceptance for
docketing of the application for renewal
of the facility operating license was
published in the **Federal Register** on
August 21, 2007 (72 FR 46680). The
purpose of this notice is to inform the
public that the U.S. Nuclear Regulatory
Commission (NRC) will be preparing an
environmental impact statement (EIS)
related to the review of the license
renewal application and to provide the
public an opportunity to participate in
the environmental scoping process, as
defined in 10 CFR 51.29. In addition, as
outlined in 36 CFR 800.8, "Coordination
with the National Environmental Policy
Act," the NRC plans to coordinate
compliance with Section 106 of the
National Historic Preservation Act in
meeting the requirements of the
National Environmental Policy Act of
1969 (NEPA).

In accordance with 10 CFR 51.53(c)
and 10 CFR 54.23, SNC submitted the
ER as part of the application. The ER
was prepared pursuant to 10 CFR part
51 and is publicly available at the NRC
Public Document Room (PDR), located
at One White Flint North, 11555
Rockville Pike, Rockville, Maryland
20852, or from the NRC's Agencywide
Documents Access and Management
System (ADAMS). The ADAMS Public
Electronic Reading Room is accessible at
[http://adamswebsearch.nrc.gov/
dologin.htm](http://adamswebsearch.nrc.gov/dologin.htm). The Accession Number for
the ER is ML071840357. Persons who

do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737, or via e-mail at pdr@nrc.gov. The ER may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/vogtle.html>. In addition, the ER is available for public inspection near VEGP at the Burke County Library, 130 Highway 24 South, Waynesboro, Georgia 30830.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) related to the review of the application for renewal of the VEGP, Units 1 and 2, operating licenses for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with NEPA and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment.

Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

- a. Define the proposed action which is to be the subject of the supplement to the GEIS.
- b. Determine the scope of the supplement to the GEIS and identify the significant issues to be analyzed in depth.
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant.
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of, the scope of the supplement to the GEIS being considered.
- e. Identify other environmental review and consultation requirements related to the proposed action.
- f. Indicate the relationship between the timing of the preparation of the environmental analyses and the

Commission's tentative planning and decision-making schedule.

- g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies.

- h. Describe how the supplement to the GEIS will be prepared, and include any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

- a. The applicant, SNC.
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards.
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards.
- d. Any affected Indian tribe.
- e. Any person who requests or has requested an opportunity to participate in the scoping process.
- f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public scoping meetings for the VEGP, Units 1 and 2, license renewal supplement to the GEIS. The scoping meetings will be held at the Augusta Technical College, Waynesboro Campus Auditorium, 216 Highway 24 South, Waynesboro, Georgia 30830. There will be two sessions to accommodate interested parties on September 27, 2007. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. Additionally, the NRC staff will host informal discussions one hour before the start of each session at the Augusta

Technical College, Waynesboro Campus Auditorium.

No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below.

Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting NRC Environmental Project Manager, Mr. Justin P. Leous, at 1-800-368-5642, extension 2864, or via e-mail to the NRC at Vogtle_LR_EIS@nrc.gov no later than September 20, 2007. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. Mr. Leous will need to be contacted no later than September 17, 2007, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the environmental scope of the VEGP, Units 1 and 2, license renewal review to: Chief, Rulemaking, Directives and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland 20852, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by October 24, 2007. Electronic comments may be sent by e-mail to the NRC at Vogtle_LR_EIS@nrc.gov, and should be sent no later than October 24, 2007, to be considered in the scoping process. Comments will be available electronically and accessible through ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of

opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (72 FR 46680). Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of a separate notice and separate public meeting. Copies will be available for public inspection at the Burke County Library, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Mr. Leous at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 21st day of August 2007.
