Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New

Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project: National Survey of STD Services Provided to U.S. College Students—New—The National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC) plans to conduct a survey of a sample of U.S. colleges asking about health services available to students with focus on sexually transmitted disease (STD) testing and management. The sample shall include a broad range of colleges including 2 and 4 year, public and private, and rural and urban colleges to determine under what conditions, for which STDs, and how colleges educate about STDs, conduct testing and provide partner management.

STDs have a large economic and health impact throughout the United States. Most college students are within the age range with the highest rates for STDs (15–24 year olds). *Chlamydia trachomatis* is the most frequently reported infectious disease in the United States with prevalence rates of

4% to 18% in 16–24 year old women. Infections with *Chlamydia trachomatis* can result in pelvic inflammatory disease and infertility. Many STDs increase the risk of HIV transmission and acquisition. Genital infections with herpes simplex virus, human papillomavirus, and *Trichomonas vaginalis* have been reported at increasing rates over the last 10 years.

This national survey will provide data that will broaden the scientific knowledge related to STD services and management available to students at U.S. colleges. The survey is intended to (a) describe health insurance policies of colleges; (b) describe preventive services such as health education and condom availability at colleges; (c) identify characteristics of student health centers including staffing, type of care, and number of students seen; (d) identify possible obstacles to accessing STD services; (e) describe which STDs are being tested for and what testing criteria are applied; and (f) describe current partner services including partner notification practices and use of partner-delivered therapy. The total response burden is estimated at 455 hours.

Respondents	Number of respondents	Number of response per respondent (in hours)	Average burden per response (in hours)
Health Service Manager	455	1	30/60
Chief Administrative Officer	455	1	30/60

Dated: June 11, 2001.

Chuck Gollmar,

Acting Associate Director for Policy, Planning, and Evaluation, Centers for Disease Control and Prevention.

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: State High Performance Bonus System (HPBS) Transmission File Layouts for HPBS Work Measures
OMB No. New Collection.

Description: The purpose of this collection is to obtain data upon which to base the computation for measuring State performance in meeting the

legislative goals of TANF as specified in section 403(a)(4) of the Social Security Act and 45 CFR Part 270. Specifically, DHHS will use the data to award the portion of the bonus that rewards States for their success in moving TANF recipients from welfare to work. This information collection will replace Form ACF-200 in FY 2002 (Bonus Year 2002). States will not be required to submit this information unless they elect to compete on a work measure for the TANF High Performance Bonus awards.

Respondents: Respondents may include any of the 50 States, Guam, Puerto Rico, and the Virgin Islands.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
State High Performance Bonus System (HPBS) Transmission File Layouts for HPBS Work Measures	54	2	16	1,728
Estimated Total Annual Burden Hours				1,728
