

information. However, these revisions do not significantly impact the analysis or results presented in the Supplemental Draft EIS. The primary changes are inclusion of a final biological assessment prepared in compliance with the Endangered Species Act, an analysis of forecasted depletions and sedimentation on the Missouri River mainstem reservoir system, and a literature review of the best available climate change information. The Final EIS includes written responses to all public comments on both the DEIS and SDEIS. It also identifies the GDU Import to Sheyenne River Alternative as Reclamation's and the State of North Dakota's preferred alternative.

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after the release of the Final EIS. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the selected action for implementation and will discuss factors and rationale used in making the decision.

FOR FURTHER INFORMATION CONTACT: Ms. Signe Snortland, telephone: (701) 221-1278, or FAX to (701) 250-4326, or ssnortland@gp.usbr.gov. Additional information including a complete copy of the Public Notice, Executive Summary, Final EIS, and Appendices are available on the Red River Valley Water Supply Project Web site at <http://www.rrvwsp.com>.

SUPPLEMENTARY INFORMATION: The final EIS considers five action alternatives and a no action alternative. Three of the action alternatives propose to use water from the Missouri River as an additional source of project water. The DEIS evaluated two treatment methods designed to reduce the risk of invasive species transfer (basic method and microfiltration). In response to comments on the DEIS, an additional treatment method, dissolved air flotation was evaluated in the SDEIS and FEIS. All of these treatment methods would be effective in removing or inactivating a broad range of organisms, including all of the potentially invasive species evaluated in the EIS. Estimated costs for construction, operation and maintenance of the treatment plant are provided. The Final EIS is available for public inspection at the following locations:

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

December 17, 2007.

The Department of Labor (DOL) hereby announces the submission of the following public information collection requests (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202-693-4129 (this is not a toll-free number)/e-mail: king.darrin@dol.gov.

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: John Kraemer, OMB Desk Officer for the Occupational Safety and Health Administration (OSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, Telephone: 202-395-7316/Fax: 202-395-6974 (these are not a toll-free numbers), E-mail: OIRA_submission@omb.eop.gov within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the OMB Control Number (see below).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
