

OSHA Challenge is designed to reach and guide employers and companies in all major industry groups who are strongly committed to improving their safety and health management programs and possibly pursuing recognition in the VPP. The Challenge Administrators application is used to: (1) Conduct a preliminary analysis of the applicant's knowledge of safety and health management programs; and (2) make a determination regarding the applicant's qualifications to become a Challenge Administrator. Once a Challenge Administrator is approved, the Administrator will review each challenge candidate's application/annual submissions to ensure that all necessary information is provided, prior to forwarding to OSHA's National Office for acceptance and analysis.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of the agency's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment decrease of 363 burden hours from 90,863 to 90,500 hours. The decrease is primarily due to the lack of Challenge participation, and lack of training of new SGE applicants and re-approval training of existing SGEs due to the negative impact of the COVID-19 imposed on all OSHA Cooperative Programs.

In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.
