Notifications to Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

In accordance with 19 CFR 351.305(a)(3), this notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under the APO, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

We are issuing and publishing this new shipper review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Withdrawal of Intent To Prepare a Draft Environmental Impact Statement/ Environmental Impact Report for the Ballona Creek Ecosystem Restoration Feasibility Study, Los Angeles County, CA

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The Los Angeles District of the U.S. Army Corps of Engineers (Corps) published a Notice of Intent to Prepare a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Ballona Creek Ecosystem Restoration Feasibility Study in the **Federal Register** on September 20, 2005 (70 FR 55116). The study's purpose is to evaluate structural and non-structural means of restoring diminished ecosystem functions and services within the lower reach of Ballona Creek including coastal wetlands. Santa Monica Bay Restoration Commission (SMBRC) is the local sponsor for the cost-shared study.

On September 29, 2005, a public scoping meeting was held pursuant to

requirements of the National Environmental Policy Act and Engineer Regulations 1105-2-100. Baseline conditions portions of the EIS/EIR have been completed as of January, 2012. On July 17, 2012, the SMBRC requested the Corps terminate the study. Therefore, the Corps is withdrawing the Notice of Intent to Prepare a draft EIS/EIR.

FOR FURTHER INFORMATION CONTACT: Ms. Jodi Clifford, Chief, Environmental Resources Branch. Mailing Address: Ms. Jodi Clifford, Chief, Environmental Resources Branch, Corps of Engineers, Los Angeles District, CESPL-PD-R, 915 Wilshire Boulevard, Los Angeles, CA 90017. Telephone: (213) 452-3840. Email: Jodi.L.Clifford@usace.army.mil.

SUPPLEMENTARY INFORMATION: The Corps is no longer pursuing restoration within Ballona Creek as a cost-shared study within its Civil Works program. Although SMBRC requested the Corps terminate the feasibility study, SMBRC, acting on behalf of the California Department of Fish and Game, is moving forward with plans for ecosystem restoration within Ballona Creek. SMBRC must obtain permissions from the Corps to proceed with implementation of its restoration proposals. Therefore, the Corps is initiating an EIS pursuant to its authorities under Section 404 of the Clean Water Act, Section 10 of the 1899 Rivers and Harbors Act, and Title 33, U.S. Code, Section 408 for a project to be planned and carried out by SMBRC. To that end, the Corps published a Notice of Intent to Prepare an EIS in the **Federal Register** on July 25, 2012 (77 FR 43575). A scoping meeting was held on August 16, 2012. All technical studies and reports prepared under the Civil Works feasibility study authority will be utilized to the maximum practical extent in support of the EIS/EIR process now underway.

Dated: September 12, 2012.

Colonel, U.S. Army Commander and District Engineer.
