

DEPARTMENT OF HEALTH AND HUMAN SERVICES

[Document Identifier: OS-0990-new]

Agency Information Collection Request. 30-Day Public Comment Request

AGENCY: Office of the Secretary, Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment.

DATES: Comments on the ICR must be received on or before September 2, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Sherrette Funn, Sherrette.Funn@hhs.gov or (202) 795-7714. When submitting comments or requesting information, please include the document identifier 0990-New-30D and project title for reference.

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Title X Implementation Study.

Type of Collection: New.

OMB No. 0990-NEW—Office of Population Affairs—OASH-OS.

Abstract: The Office of Population Affairs (OPA), U.S. Department of Health and Human Services (HHS), is requesting 3 years of approval by OMB on a new collection. The Title X Implementation Study will document

how organizations funded by the Title X Service Grants program design and implement their program services. The study will document (1) how grantees ensure access to equitable, affordable, client-centered quality family planning services; (2) the steps that Title X grantees take to provide clients from diverse communities with equitable access to affordable, high-quality, client-centered health services; (3) any pivots and/or accommodations to providing care they made in recent years, including during the COVID-19 pandemic; and (4) how they assess their impact. To carry out these objectives, the study team will rely on the following five proposed data sources: (1) a web-based survey of the 2022 cohort of Title X grantees; (2) grantee telephone interviews; (3) in-person or virtual listening visits with clinic administrators, service providers, and community outreach or partner staff at a subset of Title X sub-recipients and service delivery sites; (4) a web-based survey of clients at up to 10 of the sites selected for listening visits; and (5) telephone interviews with subject matter experts. Data collection will begin in fall 2022, pending OMB approval, with the grantee survey and interviews, which will inform selection of sites for the listening visits.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Number of respondents	Number responses per respondent	Average burden per response (in hours)	Total burden hours
Grantee project director: grantee web survey	30	1	1	30
Grantee staff: grantee interview topic guide	59	1	90/60	89
Clinic administrators: listening visit topic guide	27	1	45/60	20
Clinical service providers: listening visit topic guide	53	1	1	53
Clinic community outreach and partner staff: listening visit topic guide	27	1	45/60	20
Title X clients survey	100	1	10/60	17
Title X subject matter experts: interview topic guide	8	1	1	8
Total	304	7	237

Sherrette A. Funn,

Paperwork Reduction Act Reports Clearance Officer, Office of the Secretary.

BILLING CODE 4150-34-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**National Institutes of Health****NIH Request for Information (RFI) on NIH-Wide Strategic Plan for Research on the Health of Women**

AGENCY: National Institutes of Health, HHS.

ACTION: Request for information.

SUMMARY: The Office of Research on Women's Health (ORWH) is updating the National Institutes of Health (NIH) Strategic Plan for Research on the

Health of Women. NIH is publishing this Notice to solicit input from the basic, clinical, and translational scientists; advocacy and patient communities; and the public on topics under consideration for the next strategic plan.

DATES: NIH Request for Information (RFI) on NIH-Wide Strategic Plan for Research on the Health of Women is open for public comment through September 29, 2022. Comments must be received by September 29, 2022, to ensure consideration. Comments received after the public comment period has closed may be considered by

the Office of Research on Women's Health.

ADDRESSES: Submissions must be sent electronically to RFI submission website at: <https://rfi.grants.nih.gov/?s=62c5e1a9fe640000ed002eb2>.

FOR FURTHER INFORMATION CONTACT:

Questions about this RFI should be directed to Julianne Caviston, Ph.D., Office of Research on Women's Health, 6707 Democracy Boulevard, Suite 400, Bethesda, MD 20817, NIHWideSPWH@nih.gov, 301-435-0971.

SUPPLEMENTARY INFORMATION: ORWH was established in the Office of the NIH Director by the Public Health Service Act to (a) identify projects and multidisciplinary research related to women's health; (b) encourage research on sex differences and promote coordination among research entities; (c) assist NIH efforts to include women as participants in clinical research; and (d) develop opportunities and support for women in biomedical careers. These efforts will continue to be part of the office's core mission. Please see <https://orwh.od.nih.gov/about/mission/> for more on the ORWH mission.

ORWH is responsible for an NIH-wide strategic plan for research on the health of women that promotes allocation of NIH resources for conducting and supporting research efforts on the health of women across NIH Institutes and Centers. The NIH Strategic Plan for Women's Health Research FY 2019–2023 https://orwh.od.nih.gov/sites/orwh/files/docs/ORWH_Strategic_Plan_2019_508C_0.pdf was developed by a collaborative group of leaders from the NIH Institutes, Centers, and Offices (ICOs); external stakeholders; and the public. The plan incorporates the missions of the NIH ICOs with ORWH's mission to pave the way toward scientific and workforce efforts that ultimately benefit the health and biomedical research careers of women. ORWH is currently in the process of updating the NIH-Wide Strategic Plan for Research on the Health of Women. Recent, significant public health events (e.g., the COVID pandemic) have had significant effects on the health of women. Several topics relevant to the health of women were reviewed by the NIH and the NIH Advisory Committee on Research on Women's Health (ACRWH) in 2021, through the congressionally directed and ORWH-led Women's Health Conference <https://orwh.od.nih.gov/research/2021-womens-health-research-conference>. This required a review of NIH activities to identify research opportunities to address maternal mortality and morbidity, survival rates of cervical

cancer, and chronic and debilitating diseases in women. The recommendations that the ACRWH made consequent to this conference as well as recent scientific advances; new technologies; current health priorities; and feedback from this Request for Information will all be considered in the development of the next NIH-Wide Strategic Plan for Research on the Health of Women to help guide future NIH research efforts to improve the health of all women throughout the entire life course.

Request for Information

Please provide your perspective on the following topics:

- Research opportunities in the NIH Strategic Plan for Women's Health Research FY 2019–2023 https://orwh.od.nih.gov/sites/orwh/files/docs/ORWH_Strategic_Plan_2019_508C_0.pdf that should be modified to account for recent scientific advances.
- Emerging research needs and opportunities that reflect the changing landscape of the study of the health of women that should be added to the plan.
- Cross-cutting scientific themes (for example, multidisciplinary research, and/or utilizing data science, natural language processing, and artificial intelligence) or research-related themes that should be common to all future strategic goals and objectives (such as considerations of sex, gender, and age on health and disease, and health disparities).

How To Submit a Response

All responses should be submitted electronically at the RFI submission website at: <https://rfi.grants.nih.gov/?s=62c5e1a9fe640000ed002eb2> by 11:59:59 p.m. (ET) on September 29, 2022. You will see an electronic confirmation acknowledging receipt of your response.

Responses to this RFI are voluntary and may be submitted anonymously. You may voluntarily include your name and contact information with your response. If you choose to provide NIH with this information, NIH will not share your name and contact information outside of NIH unless required by law.

Other than your name and contact information, please do not include any personally identifiable information or any information that you do not wish to make public. Proprietary, classified, confidential, or sensitive information should not be included in your response. The Government will use the information submitted in response to this RFI at its discretion. Other than your name and contact information, the

Government reserves the right to use any submitted information on public websites, in reports, in summaries of the state of the science, in any possible resultant solicitation(s), grant(s), or cooperative agreement(s), or in the development of future funding opportunity announcements. This RFI is for informational and planning purposes only and is not a solicitation for applications or an obligation on the part of the Government to provide support for any ideas identified in response to it. Please note that the Government will not pay for the preparation of any information submitted or for use of that information.

We look forward to your input and hope that you will share this RFI opportunity with your colleagues.

Dated: July 25, 2022.

Tara A. Schwetz,

Acting Principal Deputy Director, National Institutes of Health.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG–2021–0827]

Use of Wing-in-Ground Craft in Logistical Support of Offshore Platform Operations

AGENCY: Coast Guard, Department of Homeland Security (DHS).

ACTION: Request for information.

SUMMARY: The U.S. Coast Guard seeks input from the public on wing-in-ground (WIG) craft. This information will support the Coast Guard's compliance with Section 8431 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021. In addition, public input will help in assessing the current state of WIG craft development and the technology to provide transportation support to offshore energy facilities on the U.S. Outer Continental Shelf. Finally, public input will aid in developing a plan to demonstrate WIG craft capability to conduct such operations.

DATES: Comments must be received by the Coast Guard on or before November 1, 2022.

ADDRESSES: You may submit comments using the Federal Decision Making Portal at <https://www.regulations.gov>. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section for
