

IUU fishing and related activities; support coordination and collaboration to counter IUU fishing within priority regions; and increase and improve global transparency and traceability across the seafood supply chain to deter IUU fishing and strengthen fisheries management and food security; improve global enforcement operations against IUU fishing; and prevent the use of IUU fishing as a financing source for transnational organized crime groups.

Part II of the Maritime SAFE Act calls for the establishment of the Interagency Working Group on IUU Fishing, specifying the chair and agency membership in the Working Group, as well as the Working Group's responsibilities. This Working Group met for the first time in June 2020. NOAA is chair of this Working Group for its first 3 years, joined by the U.S. Department of State and U.S. Coast Guard as deputy chairs.

The Working Group has developed its Work Plan, a living document that will serve as the basis for a 5-year strategic plan that is due to Congress by the end of calendar year 2021. In this Work Plan, the Working Group identified ongoing existing activities, as well as new lines of effort, that comprise the initial focus of Federal government actions under the purview of the Working Group. Many of the new activities proposed in the Work Plan emphasize the use of maritime intelligence and the involvement of military departments to support efforts to combat IUU fishing. The Work Plan can be found here: <https://www.fisheries.noaa.gov/national/maritime-safe-act-interagency-working-group-iuu-fishing>.

The Working Group is exploring potential ways in which the government and private sector stakeholders can work together to combat IUU fishing and enhance maritime security. We are interested to hear from the seafood industry, non-governmental organizations, and other stakeholders that are engaged in efforts to combat IUU fishing. We welcome comments in relation to the Work Plan, particularly any responses to the following questions:

- Which activities in the Work Plan are connected to the expertise or interests of your organization related to combating IUU fishing?
- What kinds of distinctive capabilities or capacities could your organization bring to the activities in the Work Plan?
- Which specific activities could serve as the basis for a partnership between your organization and particular Federal agencies?

- Are there specific geographic regions or seafood industry sectors (e.g., harvesting, processing, or trade) where your organization focuses efforts to build capacity in combating IUU fishing that could be tied to activities in the Work Plan?

- Which elements in the Work Plan do you see as priorities to include in the 5-year Strategic Plan of the Working Group?

Dated: January 19, 2021.

Alexa Cole,

Director, Office of International Affairs and Seafood Inspection, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Saltwater Angler Registry and State Exemption Program

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 26, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0578 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Lauren Dolinger Few, National Marine Fisheries

Service, Office of Science and Technology, 1315 East-West Hwy./FST1, Silver Spring, MD 21910, Phone: (301) 427-8127 lauren.dolinger.few@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved collection. The National Saltwater Angler Registry Program (Registry Program) was established to implement recommendations included in the review of national saltwater angling data collection programs conducted by the National Research Council (NRC) in 2005/2006, and the provisions of the Magnuson-Stevens Reauthorization Act, codified at Section 401(g) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which require the Secretary of Commerce to commence improvements to recreational fisheries surveys, including establishing a national saltwater angler and for-hire vessel registry, by January 1, 2009. A final rule that includes regulatory measures to implement the Registry Program (RIN 0648-AW10) was adopted and codified in 50 CFR 600, subpart P.

The Registry Program collects identification and contact information from those anglers and for-hire vessels who are involved in recreational fishing in the United States Exclusive Economic Zone or for anadromous fish in any waters, unless the anglers or vessels are exempted from the registration requirement. Data collected includes—for anglers: Name, address, date of birth, telephone contact information and region(s) of the country in which they fish; for for-hire vessels: Owner and operator name, address, date of birth, telephone contact information, vessel name and registration/documentation number and home port or primary operating area. This information is compiled into a national and/or series of regional registries that is being used to support surveys of recreational anglers and for-hire vessels to develop estimates of recreational angling effort.

II. Method of Collection

Persons may register online at a NOAA-maintained website. Registration cards, valid for one year from the date of issuance, are mailed to registrants.

III. Data

OMB Control Number: 0648-0578.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 1,204.

Estimated Time per Response: 3 minutes.

Estimated Total Annual Burden Hours: 61.

Estimated Total Annual Cost to Public: \$1,527.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (MSA).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for the revision and extension of a currently approved information collection under OMB Control Number 0648-0646. The information collection is part of the National Coral Reef Monitoring Program (NCRMP), which was established by the National Oceanic and Atmospheric Administration (NOAA) Coral Reef Conservation Program (CRCP) under the authority of the Coral Reef Conservation Act of 2000. The CRCP was created to

safeguard and ensure the welfare of the coral reef ecosystems along the coastlines of America's states and territories. In accordance with its mission goals, NOAA developed a survey to track relevant information regarding each jurisdiction's population, social and economic structure, the benefits of coral reefs and related habitats, the impacts of society on coral reefs, and the impacts of coral management on communities. The survey is repeated in each jurisdiction every five to seven years in order to provide longitudinal data and information for managers to effectively conserve coral reefs for current and future generations.

The purpose of this information collection is to obtain human dimensions information from residents in the seven United States (U.S.) jurisdictions containing coral reefs: Florida, U.S. Virgin Islands (USVI), Puerto Rico, Hawaii, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI). Specifically, NOAA is seeking information on the behaviors and activities related to coral reefs, as well as information on perceptions of coral reef conditions and attitudes toward specific reef conservation activities. Each survey has a core set of questions that are the same for all jurisdictions to allow for information to be tracked over time. To account for geographical, cultural and linguistic differences between jurisdictions, the survey questions include items that are specific to the local context and developed based on jurisdictional partner feedback.

We intend to use the information collected through this instrument for research purposes, as well as for measuring and improving the results of our reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP to ensure that programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

Pursuant to a request from the Office of Management and Budget (OMB), this collection of information is being revised to restructure these surveys as a hybrid-generic collection.

II. Method of Collection

Information will be collected using the most efficient and effective methodology that is feasible in the individual jurisdiction. For the three
