

prohibiting directed fishing for species included in the shallow-water species fishery by vessels using trawl gear in the GOA, except for vessels fishing for pollock using pelagic trawl gear in those portions of the GOA open to directed fishing for pollock. The species and species groups that comprise the shallow-water species fishery are: pollock, Pacific cod, shallow-water flatfish, flathead sole, Atka mackerel, and "other species."

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to prevent overharvesting the second seasonal apportionment of the 2000 Pacific halibut bycatch allowance specified for the trawl shallow-water species fishery in the GOA. A delay in the effective date is impracticable and contrary to the public interest. The fleet has already taken the second seasonal bycatch allowance of Pacific halibut. NMFS finds for good cause that the implementation of this action can not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.21 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 26, 2000.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 000211040-0040-01; I.D. 052600C]

Fisheries of the Exclusive Economic Zone Off Alaska; Greenland Turbot in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2000 total allowable catch (TAC) of Greenland turbot in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), May 28, 2000, until 2400 hrs, A.l.t., December 31, 2000.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and CFR part 679.

The 2000 TAC of Greenland turbot in the Bering Sea subarea was established by Final 2000 Harvest Specifications of

Groundfish for the BSAI (65 FR 8282, February 18, 2000) as 5,764 metric tons (mt). See § 679.20(c)(3)(iii).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the TAC for Greenland turbot in the Bering Sea subarea will be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 4,564 mt, and is setting aside the remaining 1,200 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately to prevent overharvesting the 2000 TAC of Greenland turbot for the Bering Sea subarea of the BSAI. A delay in the effective date is impracticable and contrary to the public interest. Further delay would only result in overharvest. NMFS finds for good cause that the implementation of this action should not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*
